### SANTA CRUZ COUNTY BOARD OF SUPERVISORS

701 Ocean Street  
Santa Cruz, CA 95060

SUBJECT: AUTHORIZATION FOR ADDITIONAL STREET LIGHTING  
HIGHWAY SAFETY COUNTY SERVICE AREA #9  
GRAHAM HILL ROAD AT SUMMIT AVENUE

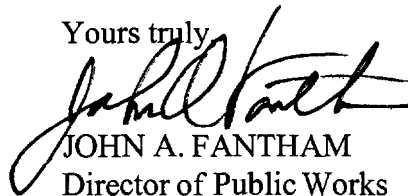

#### Members of the Board:

The Public Works Department recently requested the Pacific Gas and Electric Company to determine the feasibility of installing two new street lights to enhance traffic safety on Graham Hill Road at Summit Avenue. Pacific Gas and Electric Company has indicated that the installation is feasible and the energy cost for each 200 watt high pressure sodium vapor street lamp will be \$10.98 per month. Funds are available in Budget unit 951165, Highway Safety County Service Area #9 to cover the cost.

It is recommended that the Board of Supervisors take the following action:

1. Authorize the installation of two new street lights on Graham Hill Road at Summit Avenue.
2. Direct the Clerk of the Board to contact the Pacific Gas and Electric Company for purposes of submitting authorization for the new street lights.

Yours truly

JOHN A. FANTHAM  
Director of Public Works
