Santa Cruz, California 95060

**STATUS REPORT ON CNG REFUELING FACILITY**

Dear Members of the Board:

On February 10, 1998 your Board accepted a status report on the Natural Gas Fueling Coalition project to develop two Compressed Natural Gas (CNG) vehicle refueling facilities in the County and directed the General Services Department to provide a further update on or before today's meeting.

Work is now very near completion but, as your Board is aware, on April 22, 1998 an accident occurred during the final stages of the electrical work, injuring one of the Contractor employees and starting a wiring fire that forced the closure of the County Government Center for two days. This has resulted in delays in completion of the work on the CNG project.

We are currently developing recommendations to accommodate the completion of work for your Board's consideration, and we expect to finalize our recommendation in the next several weeks.

It is therefore **RECOMMENDED** that your Board:

1. Accept and file this status report on the Natural Gas Fueling Coalition projects; and
2. Direct General Services to return with an updated report on the project status on or before the meeting of August 4, 1998

Very truly yours,

**ROY HOLMBERG**  
General Services Director
