I have worked with women in my role as a Nurse practitioner for 25 years. I Am committed to working with low income women to provide health care and services not always readily available to them. Low income women often feel trapped in a relationship because of the financial circumstances often not in their control.

I have worked on the medical subcommittee which helped develop the protocol for recognizing and reporting D.V. Much more education and training is necessary to reach the private health sector.

I believe I can make a contribution to the commission because of my long term residence in the community as well as my long term practice in Warsawville. My clinic work at Planned Parenthood gives me direct access to women in need. I look forward to this appointment.

Respectfully

Konette Kuehler
