SUBJECT: JAMISON CREEK ROAD 1998 STORM DAMAGE REPAIR PROJECT
AT P.M. 1.63, EMERGENCY RELIEF DAMAGE ASSESSMENT FORMS
CSC-SCR-003E

Members of the Board:

The plans, specifications, and engineer's estimate for the subject emergency relief project are now complete and presented here for your consideration and approval. The repair work, as approved by the California Department of Transportation (CALTRANS) under the subject Damage Assessment Forms (DAFs), allows for the repair of a **slipout** on Jamison Creek Road, which resulted from the February 1998 storms. This project will provide for construction of cribwall, **overside** drain, guardrail, and erosion control.

The engineer's estimate for this work is \$193,044, including contingencies and overhead. Funding for this project has been made available through the Federal Highway Administration's "On System" road storm repair program which is administered by CALTRANS. This program is funded at a 100 percent reimbursement for all work completed during the first 180 days of the event until August 1, 1998, excluding the County's administration expenses. After August 1, 1998, the rate of reimbursement is reduced to 88.53 percent. Funds for the local share of these expenses are made available from other Road Budget programs (estimated at approximately \$15,000).

It is therefore recommended that the Board of Supervisors take the following action:

1. Approve the plans, specifications, and engineer's estimate, and authorize calling for bids.

2. Set the bid opening for 10:45 A.M. on June 9, 1998.
3. Direct the Clerk of the Board to advertise a notice to contractors for a ten-day period beginning May 24, 1998, in accordance with the provisions of Public Contract Code Section 20392.

Yours truly,

for JOHN A. FANTHAM
Director of Public Works
