Replacement County Fire Station for Loma Prieta Community

Dear Members of the Board:

As reported to your Board on April 28, 1998, County staff from Risk Management, Emergency Services, County Fire, Planning and County Counsel have continued their respective work assignments on the replacement County Fire station which serves the Loma Prieta community. At this time, the plans for obtaining the use permit which had been submitted following the completion of the grading plan, have been evaluated as complete by the Planning Department, and it is anticipated that the required public hearing will be scheduled by mid August.

Project architect Teal1 Messer has advised that the construction plans will be approximately 75% complete by June 12. Mr. Messer has continued his work directly with the Loma Prieta fire team representatives to ensure their participation and understanding of the rebuilding process. At this point, no significant issues regarding the planning for the replacement facility itself have arisen.

It is therefore recommended that your Board accept this status report on development of the County Fire station located in the Loma Prieta community, and direct the General Services staff to return to your Board with a further status report on or before September 15, 1998.

Very truly yours,

A handwritten signature in black ink, appearing to read "Roy K. Holmberg", written over a horizontal line.

**Roy K. Holmberg
General Services Director**
