INSTRUCTIONS

If you are Interested In serving on a County Advisory Body please complete the following application and return It to the Board of Supervisors, 701 Ocean St., Room 500, Santa Cruz, California. If you are Interested In being considered for more than one advisory body a separate application should be submitted for each appointment you are seeking.

Upon receipt, your application for appointment will be routed to each Board member and then filed for further consideration by Board members when there is a vacancy on the advisory body. If a Supervisor is interested in nominating you for appointment, the Supervisor will contact you and discuss the appointment, the appointment process, and requirements for the advisory body in question.

Please specify below the Commission/Committee or Board to which you are seeking appointment and provide the requested information.

Thank you for your interest in County Government,

COMMISSION, COMMITTEE or BOARD

Board of Supervisors,
Santa Cruz County
701 Ocean St., Suite 500
Santa Cruz, CA

RE: Santa Cruz County Health Options Advisory Board

Dear Board of Supervisors,

Please find enclosed my application to serve on the SCCHO Board, and my CV. I have discussed the position with Dr. Wells Shoemaker, and have served in an interim capacity as medical director during his absence on two occasions. I have also discussed the responsibilities with Mr. John Petersdorf. I feel well advised of the time commitment and types of issues to be addressed. I am willing to commit the necessary time, and mental energy.

There are several reasons for my interest in this board: I hope to improve health services in the county, particularly for the disabled, and have worked to this end at Dominican, Cabrillo and home health agencies. I believe this can best be achieved by cooperation and coordination between patients, providers and payors. This board presents a unique opportunity to address these issues in a meaningful way. My time working with the staff at SCCHO has offered me insight into the conflicting demands for funds, and I am interested in helping shape guidelines and accountability for the use of public funds. I am keen to learn from other board members, and share my experiences.

I hope to offer insight from several perspectives: I have served as a physician for straightforward and difficult cases in the county, acted as medical director for acute and subacute rehabilitation programs, and dealt with provider issues from many disciplines.* I have been patient advocate and in the position of saying "no" to patient requests. Previously I practiced in Canada, where I faced many of the same issues. Additionally, I was medical director of a rehabilitation program for three years, involved in teaching at the University of Toronto, and served on the Province of Ontario Advisory Board for the Assistive Devices Program-this group established prescribing and pricing policies for the government health plan with respect to wheelchairs, mobility devices, orthotics and prosthesis (limb, eye, breast, etc.).

I hope to be able to offer perspective from my experiences in Santa Cruz and Canada, an open mind, and a commitment to improving health services to your board.

Sincerely,

Robert Quinn, MD
