Status Report on Emergency Management Plan

Dear Members of the Board:

On April 14, 1998 your Board received a status report on the development of the County's emergency management plan. At that time, the County's draft plan, which includes the Standardized Emergency Management System (SEMS) requirements, was under review by State Office of Emergency Services to ensure conformance to the SEMS format. County departments with specific emergency assignments have also been in the process of reviewing their particular plan sections in view of their operational experiences this past winter and from the County-wide exercise in late April, 1998.

Staff anticipate that the draft plan will be presented to the County Disaster Council and Operational Area Council for review at their September meetings. Following those meetings, any specific recommendations for revisions made by the respective Councils will be considered for addition to the plan draft prior to presentation to your Board for final approval, which will occur most likely in late October.

It is therefore **RECOMMENDED** that your Board accept this status report on local emergency management plan development and direct the General Services Department to return with a further report on or before October 27, 1998.

Very truly yours,

ROY K. HOLMBERG, Director

RKH/NCG/sems825

RECOMMENDED:

SUSAN A. MAURIELLO
County Administrative Officer
