Re: Local Board of Mental Health

Dear Ms. Dorsey:

I would like to be considered for the opening on the Santa Cruz County Local Board of Mental Health. I have lived in Santa Cruz for 11 years and have been looking for an opportunity to utilize my expertise and interest in order to serve my community.

My professional training is in experimental child psychology, with an emphasis on perception and cognition. After returning to California in the late 1960s, my interests shifted to more applied aspects of child development. I became heavily involved in an interdisciplinary liberal arts program that focussed on student-initiated learning (New College). My research focus was on children's rights, and I spent a considerable amount of time on advocating for students within the university setting. After the termination of the New College program, I became involved in academic and support services administration. Counseling Services, Women's Studies, General Education and special majors all require(d) me to walk the delicate tightrope between implementation of academic policies and procedures and servicing individual student needs.

Board Member John Laue has invited me to apply for a position on the Board. We feel that my experience and commitment to students and children over the years could add a valuable dimension to the Board.

I have enclosed a resume for your review. Please feel free to call me or any of my references if there are any questions. Thank you for your consideration.

Sincerely,

Cynthia Rae Margolin
