SANTA CRUZ COUNTY BOARD OF SUPERVISORS

701 Ocean Street
Santa Cruz CA 95060

SUBJECT: ROY WILSON YARD - GROUNDWATER MONITORING AND
STOCKPILED SOIL INVESTIGATION AND REMEDIATION

Members of the Board:

On April 14, 1998, your Board approved continued funding for three related contracts with Terratech, Inc., and AN/EN, Inc., in order to investigate the extent of the soil and groundwater contamination from two underground fuel tank leaks at the Roy Wilson Maintenance Yard. Although the associated projects are progressing according to schedule, the allocated funds for the contract to investigate the stockpiled soil were expended before the project could be completed; therefore, we are writing to request approval to amend the three related Independent Contractor Agreements.

The Environmental Health Services Department has required a work plan to remediate the soil stockpiled from excavation of the tanks. The work plan was approved and the investigation of the soil is near completion. The project required drilling deeper than anticipated, and considerably more manual excavation through overgrown vegetation was required. In order to comply with the requirements of the Environmental Health Department and to complete the investigation phase of the project an additional \$3,000.00 is requested.

Sufficient funds are available within the Department of Public Works Roads and Yards Internal Service Fund to cover the cost of the contract,

It is, therefore, recommended that the Board of Supervisors take the following actions:

1. Approve the attached amendments to the original agreements from Terratech, Inc.; one agreement requests an additional \$3,000.00, and both contracts extend the expiration date to June 30, 1999.

2. Approve the attached amendment to the original agreement from AN/EN, Inc. by extending the time of expiration to June 30, 1999.
3. Authorize the Director of Public Works to sign the amendments to the agreements.

Yours truly,

JOHN A. FANTHAM
Director of Public Works
