**STATUS REPORT ON CNG REFUELING FACILITY**

**Dear Members' of the Board:**

**On August 4, 1998 your Board accepted a status report on the compressed natural gas (CNG) fueling facility projects of the Natural Gas Fueling Coalition, and directed a further update on or before today's meeting.**

**Representatives of the equipment manufacturer arrived last week to complete the final connections and testing for operation of the facility, including the interface and programming for the card reader system which will be used for access and to collect billing data. This work will also include training on the equipment maintenance.**

**Draft contracts establishing a fuel pricing formula to recover the cost of operation and billing have been prepared, as well as other releases and agreements necessary before the facility can be placed into full operation. These will be presented to the Coalition members at the next business meeting and, when accepted and signed by the Coalition, will be presented for your Board's review and authorization.**

**CNG Project update**

09/15/98

**Page 2**

**It is therefore RECOMMENDED that your Board:**

- 1. Accept and file this status report on the Natural Gas Fueling Coalition projects; and**
- 2. Direct General Services to return with a final update on or before the meeting of November 24, 1998.**

Very truly yours,

**ROY HOLMBERG**

**General Services Director**
