SANTA CRUZ COUNTY BOARD OF SUPERVISORS
701 Ocean Street
Santa Cruz, California

SUBJECT: BROWNS VALLEY ROAD STORM DAMAGE REPAIR
PM 2.75, FEDERAL EMERGENCY MANAGEMENT AGENCY DSR NO. 08727
AND PM 3.30, OFFICE OF EMERGENCY SERVICES DSR NO. 44

Members of the Board:

The plans and specifications for the subject project are complete and presented here for your consideration and approval. This combined project will provide for the repair of two storm damage sites on Browns Valley Road, at PM 2.75 and PM 3.30. At PM 2.75, the project provides for restoring the road embankment by constructing a large cribwall, along with replacing an existing damaged culvert. At PM 3.30, a new concrete wingwall will be constructed to replace a damaged bridge abutment.

Since these repairs are immediately adjacent to the stream channel, we are working closely with Fish and Game to determine if weather conditions will still allow us to complete these repairs before the rainy season is upon us, or if we will have to wait until next spring to proceed.

The total engineer's estimate for this project is \$288,675 including contingencies. Funding for this project was included in the approved 1998/99 Road Program with revenue authorized by the 1997 Federal Emergency Management Agency (FEMA) and 1996 State Office of Emergency Services (OES) Damage Survey Reports for the sites.

It is therefore recommended that the Board of Supervisors take the following action:

1. Approve the plans, specifications and the engineer's estimate and authorize calling for bids.
2. Set the bid opening for 10:45 a.m. on October 27, 1998.

248

426

3. Direct the Clerk of the Board to advertise a "Notice to Contractors" for a ten day period beginning on October **11**, 1998, in accordance with the provisions of the Public Contract Code, Section 20392. 426

Yours truly,

JOHN A. FANTHAM
Director of Public Works
