APPLICATION FOR APPOINTMENT TO A COUNTY ADVISORY BODY**INSTRUCTIONS**

If you are interested in serving on a County Advisory Body please complete the following application and return it to the Board of Supervisors, 701 Ocean St., Room 500, Santa Cruz, California. If you are interested in being considered for more than one advisory body a separate application should be submitted for each appointment you are seeking.

Upon receipt, your application for appointment will be routed to each Board member and then filed for further consideration by Board members when there is a vacancy on the advisory body. If a Supervisor is interested in nominating you for appointment, the Supervisor will contact you and discuss the appointment, the appointment process, and requirements for the advisory body in question.

Please specify below the Commission/Committee or Board to which you are seeking appointment and provide the requested information.

Thank you for your interest in County Government.

Board of Supervisors
Santa **Cruz** County

Gentlepersons:

I have practiced pediatrics in south Santa **Cruz** County for over 23 years, including **staff** memberships at all hospitals in the county. I have cared for Medi-cal patients since beginning my practice here and continue to do so. Currently, I am the president of the Santa Cruz County Medical Society and am active in committee work of the Physicians Medical Group of Santa **Cruz** County, the county's larger Independent Practice Association (**IPA**).

Also, I have worked in Monterey County as a locum tenens and a temporary **IPA** medical director. I participated in the failed Health Initiative. I maintain professional contacts with many physicians of the north Monterey County medical service areas and am familiar with the demographics, geographics, hospital situations and medical culture aspects of the area.

I became involved in the development of our current SCCHO program with the creation of the task force that led to SCCHO's creation, and I have regularly attended meetings of its commission as a representative of the provider community since its inception.

With the development of a regional managed care system for the Medi-cal recipients of both counties, I would bring a broad background of experience in the Medi-cal system, managed care concepts, and familiarity with the physician provider communities of both counties. I would continue to strive for conciliation of provider needs and concerns with the health system's basic mission of improving access and quality of care to those to be served.

Thank you for your consideration.

Arthur S. Dover MD
