STATUS REPORT ON CNG REFUELING FACILITY

Dear Members of the Board:

On September 15, 1998 your Board accepted a status report on the compressed natural gas (CNG) fueling facility projects of the Natural Gas Fueling Coalition, and directed a further update on or before today's meeting.

Although a few software and mechanical adjustments remain, work at both the Watsonville and Santa Cruz facilities is essentially complete. County fleet vehicles that were converted earlier for CNG operation have begun fueling at the Government Center site, and we have received requests for access from The City of Santa Cruz and the Santa Cruz Metropolitan Transit District.

In order to allow access to other Coalition member vehicles or those of non-member agencies, it is necessary that certain contracts and agreements be in place. These agreements are in the process of review by County Counsel and the Coalition members and, when finalized, will be submitted for your Board's approval.

CNG Project update
11/24/98 - page 2 -

It is therefore **RECOMMENDED** that your Board:

1. **Accept and file this status report on the Natural Gas Fueling Coalition projects; and**
2. **Direct General Services to return with necessary agreements and contract documents on or before the meeting of December 15, 1998.**

Very truly yours,

ROY HOLMBERG
General Services Director
