Status Report on Emergency Management Plan

Dear Members of the Board:

On October 27, 1998 your Board received a report on the development schedule of the County's emergency management plan, specifically the addition of planning elements related to the statewide Standardized Emergency Management system (SEMS) and crisis/consequence management. At the time of that report, staff anticipated that the plan draft would be ready for presentation to your Board after review by the County Disaster and Operational Area Councils.

Presently, the County Disaster Council and Operational Area Council members have received and are reviewing Part One of the draft plan document. Parts Two and Three are currently under development and will be ready for the council members review by the end of January at the latest. Following the reviews by the respective councils, any specific recommendations for revisions will be considered for addition to the plan draft prior to presentation to your Board for final approval.

It is therefore **RECOMMENDED** that your Board accept this status report on the local emergency management plan development and direct the General Services Department - Emergency Services Division to return with a further report on or before April 13, 1999.

Very truly yours,

Roy K. Holmberg
General Services Director
