Deferral of Status Report on Emergency Management Plan

Dear Members of the Board:

On December 15, 1998 your Board received a report on the development schedule of the County's emergency management plan, specifically the addition of planning elements related to the statewide Standardized Emergency Management system (SEMS) and crisis/consequence management. At the time of that report, staff anticipated that the plan draft would be ready for presentation to your Board after review by the County Disaster and Operational Area Councils and the County Administrative Officer.

Due to scheduling and significant workload, additional time will be necessary to complete the review of the draft plan and incorporate the input from all participants. Staff are recommending that a status report on the plan's progress be presented to your Board on or before June 8, 1999.

It is therefore RECOMMENDED that your Board defer the status report on the local emergency management plan development and direct the General Services Department - Emergency Services Division to return with a further report on or before June 8, 1999.

Very truly yours,

Roy K. Holmberg
General Services Director
