6/28/93 how it triau Concerno Upon retiring two years ago, leaving 51 behind an acture professional career and communities of activities, to return to California I found there was a too quice word in my life. I called organizations searching for replacement contacts, one being the Senior Services I went to all the Sr. Centers except foots Valley and found them all unique ... and with different agendas which intellecticity interested my constantly rationalizing mind. The food serving processes became forefront and the council meetings were somewhat similar to my past State (SI) Day lare commission. Lince this is a whole new arena for me, I feel I Ean ask questions, process the answerse and advise positioning , In fact I presently have questions that need To be assessed and would like very much to participate in the process.
