The DOF estimated 1992 growth rates for both the entire County (1.0%) and the unincorporated area (1.0%), are much less than the estimated 1.8% State growth rate for 1992, and are also far below the average growth rates of 2.0% for these same areas during the 1980-90 decade, as can be seen through comparisons to the numbers in Table 2. It may be noted that these recent County growth rates also represent a significant change from previous decades when the County grew much faster than the State.
