**AGENDA: AUGUST 10, 1999**

July 30, 1999

BOARD OF DIRECTORS-ZONE 6  
SANTA CRUZ COUNTY FLOOD CONTROL  
AND WATER CONSERVATION DISTRICT  
701 Ocean Street  
Santa Cruz, CA 95060

**SUBJECT: TROUT GULCH ROAD IMPROVEMENT PROJECT**

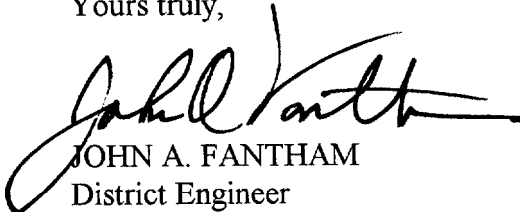

Members of the Board:

During the past several years, excessive storm water runoff from Old Farm Lane and Osprey Lane has caused flooding problems along Trout Gulch Road. This flooding can be mitigated by extending the existing storm drain system from Trout Gulch Road at Quail Run Road to the intersection of Trout Gulch Road with Old Farm Lane and Osprey Lane. A portion of this work is within the area of the Trout Gulch Road Improvement Project and the additional work can be included with that project.

Included in the approved Zone 6 budget was a contribution of \$60,000 towards this drainage improvement. Actual cost figures that are now available indicate an additional \$35,426 in Zone 6 funding is necessary. Funding is available in the Zone 6 budget in the line item for Esplanade Drainage (Bank). This line item is a "bank" only for a future project with an unknown cost at this time. Use of \$35,426 from this item will solve a current serious drainage problem.

It is therefore recommended that the Board of Directors approve the use of \$35,426 from the Esplanade Drainage (Bank) budget item for the Trout Gulch Road Improvement Project.

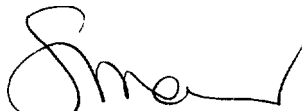

Yours truly,

JOHN A. FANTHAM  
District Engineer
