

General Plan/Local Coastal Program Amendments - Coastal Commission Recommended:

Revise Table 1-7 (General Plan Resource and Constraints Maps) as shown on the attached pages (Attachment 1)

Revise 1994 General Plan and Local Coastal Program for the County of Santa Cruz Policy 5.12.9 by adding the underlined wording:

5.12.8 Timber Resource Land Not Zoned Timber Production

Evaluate proposed land divisions and residential development permit applications on parcels larger than 20 gross acres designated Timber Resources on the General Plan and LCP resources and Constraints Maps, but not zoned TP, for timber resource potential. Apply the TP land division and residential density requirement policies for any parcel found to have timber resources equivalent to TP parcels. Require, as a condition of any land division, rezoning to TP for parcels which have equivalent timber resources and that meet the criteria of policy 5.12.9.

Revise 1994 General Plan and Local Coastal Program for the County of Santa Cruz policy 5.12.9 by adding the underlined wording:

5.12.9 Rezoning Land to Timber Production

Encourage timberland owners to apply for Timber Production zoning where appropriate. In the coastal zone it is not appropriate to zone timberland for timber production if the land is recreational, environmentally sensitive, or visible from rural scenic roads (pursuant to policy 5.10.3) and if logging will harm these resource values. For purposes of this policy, harmful activities shall be considered as those including any significant disruption of environmentally sensitive habitat, any loss of landmark old growth trees, any degradation of scenic public views, any significant loss of timberland soils or siltation of spawning gravels. Also, in the coastal zone, it is not appropriate to zone timberland for timber production if the land is susceptible to a geologic hazard that may be exacerbated by logging and not responsive to mitigation. Such rezonings must be in accordance with the procedures set forth in the TP ordinance.

Add Policy 5.12.14, as follows:

5.12.14 Zone Districts Where Timber Harvesting is Allowed

Allow timber harvesting and associated operations, requiring approval of a Timber Harvesting Plan by the California Department of Forestry, only in the Timber Production (TP), Parks, Recreation and Open Space (PR) (except in the coastal zone), and Mineral Extraction Industrial (M-3) zone districts.

For the purposes of this subsection, harmful activities shall be considered as those including anv significant disruption of environmental& sensitive habitat, any loss of landmark oldgrowth trees, any degradation of scenic public views, any significant loss of timberland soils or siltation of spawning g-ravels.

8. The land shall not be susceptible to a geologic hazard that may be exacerbated by logging and not responsive to mitiaation.

SECTION X

Chapter 13.10 is hereby amended by adding Section 13.10.378 to read as follows:

Appurtenant helicopter service and log landing areas must be sited within the Timber Harvest Permit (THP) boundaries on property which is either zoned TP or is zoned on another zone district where timber harvesting is an allowed use. Helicopter flights for log transport between the area where the felling is occurring and the landing must occur only over property contained within the approved THP.~~

~~(b) No helicopter flight may occur within 1,000 feet horizontally of an inhabited residence, provided that the Director may reduce this requirement to 500 feet with the written concurrence of the residential inhabitant.~~
