Santa Cruz, California 95060

Status Report: Emeline Campus Traffic and
Pedestrian Circulation Plan

Dear Members of the Board:

On January 11, 2000 your Board deferred action on recommendation of a contract award for engineering services for the Emeline Campus Traffic and Pedestrian Circulation Plan and directed staff to return on January 25, 2000. At that time, staff were in the process of evaluating the responses from interested firms.

Two responses were received from qualified firms who were interested in the project. Following a review of the RFQ information, General Services staff began negotiations with Fehr and Peers, Associates of San Jose and Lafayette, California to perform the specified work. At this time, staff believe that the contract negotiations can be completed and a recommendation forwarded to your Board for action on the February 8th agenda.

It is therefore recommended that your Board accept this status report and direct the General Services Department to return on February 8, 2000 with a proposed agreement for engineering services for the Emeline Campus Traffic and Pedestrian Circulation Plan.

Very truly yours,

Roy K. Holmberg
Director
