## STATEMENT OF QUALIFICATIONS

0246

Since medical school, I have seen first hand the effects of poverty, drugs, youth violence, lack of quality child care, teen pregnancy and poor access to quality pediatric care particularly for uninsured/under insured chronically ill children. My professional life has been dedicated to serving the under served and their families. However, I know that alone I can only make a small impact. We must work together as a community to address these problems **and** to find their solutions. We now have a great opportunity to **find** solutions that may make an impact on many generations to come. I wish to part of this process.
