BOARD OF SUPERVISORS
County of Santa Cruz
701 Ocean Street
Santa Cruz, CA 95060

RE: **Approvals of the FY 1999/2000 State Department of Mental Health Performance Contract and Amendment to the State Mental Health Managed Care Contract**

Dear Board Members:

Since 1989, the County has entered into an annual Performance contract with the State for the provision of local mental health services. The contract for FY **1999/2000** is attached for your Board's approval.

This contract includes provisions for Short-Doyle/Medical (SDMC) rates, numbers of state hospital beds, costs for state hospitals, general requirements as specified in state law, descriptions of state allocations and general assurances. Each year, changes in state law result in changes to the contract. However, this year, no major changes have been made to this contract and it is, in essence, the same as for FY **1998/99**.

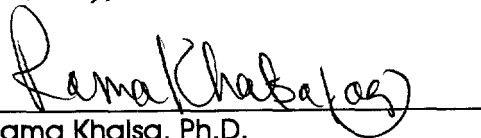

The SDMC rates reflected in this contract are equal to the rates included in the revenue estimates for the approved budget for FY **1999/2000**. Therefore, the **rate** provisions in this contract do not negatively impact previously budgeted revenues.

The Local Mental Health Advisory Board has reviewed and accepted the attached State Performance contract. The State recently allocated additional mental health managed care funds to all counties for services rendered to beneficiaries residing in institutions for mental diseases (**IMDs**). Santa **Cruz** County's share is \$3,048 for FY **99/00**. An amendment to the State Mental Health Managed Care contract including these additional funds is also attached for your Board's approval. These funds were anticipated and are already included in HSA Mental Health's approved budget.

It is, therefore, **RECOMMENDED** that your Board:

1. Adopt the attached resolution approving the State Performance Contract and authorize the Health Services Administrator to sign the contract;
2. Adopt the attached resolution approving the amendment to the State Mental Health Managed Care Contract and authorize the Health Services Administrator to sign the contract; and
3. Direct the Clerk of the Board to prepare three certified copies of each Board Resolution for the Health Services Agency to send to the State Department of Mental Health.

Sincerely,

Rama Khalsa, Ph.D.
Health Services Agency Administrator

The Hospital(s) shall notify the County by telephone immediately upon becoming aware of the death of any person served hereunder, if the patient is an inpatient in the Hospital or is on leave from the Hospital but is still considered an inpatient at the time of death. However, such notice need only be given during normal business hours. In addition, the Hospital(s) shall use its best efforts to, within twenty-four (24) hours after such death, send a FAX written notification of death to the County.
- b. The telephone report and written notification of death shall contain the name of the deceased, the date and time, of death, the nature and circumstances of the death, and the name of the Hospital representative to be contacted for additional information regarding the patient's death.

SECTION 18 - REPORTS

During the fiscal year 1999-00, the parties shall continue to work on improving the information system. The state will continue to work with the CMHDA and county representatives to define more detailed data needs and develop the specification of staff, financial, physical and technological resources needed to pursue an arrangement whereby data can be delivered directly to the counties.

The state will create a data file on a weekly basis containing state hospital midnight census and year-to-date totals by level-of-care for all counties. The file will be available for downloading to the California Mental Health Directors Association (CMHDA) via a computer at CMHDA and at each county, at the county's request.

The state will provide the counties with quarterly reports showing the status of revenue collections from third parties, for services to county LPS patients. This report will identify the anticipated sources of revenue, the amounts projected to be received and the amount received year to date.

SECTION 19 - SMALL COUNTY BED POOL (SCBP)

- a. This Section applies only to the counties that have indicated that they are members of the SCBP as reflected in Attachment 3 of this agreement.
- b. As a member of the SCBP, the County is contracting for the number and types of State Hospital beds described in Attachment 3 (Cost Computation) of this contract. These beds are to be considered as part of the SCBP and may be used by any member of the pool. The County's access to the SCBP's beds shall be coordinated on behalf of the

member counties by the CMHDA, hereinafter referred to as the "Pool Coordinator". The County shall refer patients and provide authorization for admission as described in this contract. In addition, the County agrees to be bound by the decisions of the SCBP's Utilization Review Committee and the Pool Coordinator regarding access to SCBP beds. When a patient is referred for admission, the Hospital(s) shall be provided written authorization from both the referring County and the Pool Coordinator. The Pool Coordinator shall also represent the County in its capacity of SCBP member on issues relating to utilization review and quality assurance activities.

- c. The purpose of the SCBP is to facilitate the efficient and economical utilization of state hospital beds by small counties who could only purchase a few beds with their own resources. Member counties purchase a portion of the SCBP's total dedicated capacity, but have access to the number and mix of beds in the total pool. As indicated in Attachment 3, an average cost per SCBP bed has been calculated by determining the actual cost of the number and mix of beds to be purchased by the SCBP and then dividing that amount by the total number of beds purchased.

The dedicated capacity and excess use provisions set forth in Section 9, PART A, II of this contract apply to the SCBP as though it were a single county user. The SCBP's excess use, if any, for the first six (6) months of this contract shall be added to the excess use, if any, during the last six (6) months of the contract year. The cost of the resulting annual use in excess of the SCBP's dedicated capacity, if any, shall be charged to member counties in accordance with instructions given to the state by the Pool Coordinator at the end of the 1999-00 fiscal year.

- d. The County shall pay the amount identified in Attachment 3 as the County's contribution to the SCBP and that portion, if any, of the SCBP's annual excess use amount identified by the Pool Coordinator at the end of the contract year as being the responsibility of the County.

After the SCBP members identified the number and mix of beds to be purchased as the SCBP's dedicated capacity for fiscal year

1999-00, the State calculated the average cost per bed by dividing the actual cost of the beds by the number of beds. As indicated in Attachment 3, the county is charged this average rate for the bed(s) it purchases regardless of the cost center of bed.

Notwithstanding the provisions of Section 9(A)(3) of this contract, use in excess of the SCBP's dedicated capacity during each half of the contract year shall be calculated, in January for the period July 1 through December 31, 1999, and in July for the period January 1 through June 30, 2000, by reducing the number of bed/days used in excess of the SCBP's dedicated capacity in all cost centers at a hospital during the period by the number of bed/days underused in all cost centers at that hospital during the same period.

The State shall determine the dollar value of the bed/days actually used by the SCBP and compare that amount with the dollar value of the SCBP's dedicated capacity for the period. SCBP members will be charged the contract amount, or the value of the SCBP's actual use, whichever is greater.

This method of calculation notwithstanding, the SCBP members' obligation shall not be reduced below the contract amount set forth in Attachment 3. The SCBP's use in excess of its dedicated capacity for the two half year periods shall be added together and charged to the member **counties** at the end of the contract year in accordance with instructions given to the State by the Pool Coordinator.

Part B - SPECIFIC PROVISIONS

1. The State has designated the Deputy Director, Long Term Care Services for all issues relating to PART II of this contract, to be its Project Coordinator. Except as otherwise provided herein, all communications concerning PART II of this contract shall be with the Project Coordinator.
2. No amendment or modification to the terms and conditions of PART II of this contract, whether written or verbal, shall be valid unless made in writing and formally executed by both parties and approved by the State Department of Mental Health.

Any amendments to PART II of this Contract may include increases or decreases in the number of beds purchased within a cost center for the remainder of the current Contract term. In the case of a decrease in the number of beds purchased within a cost center, the County will remain responsible for the fixed costs of the beds which are eliminated pursuant to such Contract amendment, unless the State contracts these bed(s) to another entity, in which case the County shall be absolved of all charges for such bed(s). In the case of an increase in the number of beds purchased within a cost center, the purchase cost shall be the rate established for those beds for the current fiscal year.

3. The parties understand and agree that PART II of this Contract shall not be terminated during its term. The provisions for altering PART II of this Contract during its life are articulated in paragraph 2 above.

Section 4331 of the Welfare and Institutions Code defines the process to be followed in renewing the County's contract for state hospital services. It is understood by the parties that this annual renewal process is for the purpose of ensuring an orderly adjustment in the use of state hospitals by the counties.

4. Should the State's ability to meet its obligations under the terms of this Contract be **substantially impaired** due to loss of license to operate, damage or malfunction of the physical facilities, labor unions, or other cause, the State and the County shall negotiate modifications to the terms of this Contract which ensure the safety and health of County patients.
5. The amount payable by the Contractor to the State concerning all aspects of PART II of this Contract shall be \$115,923. The contract amount reflected here was computed based on the information contained in Attachment 3. The amount represents the application of the 1999-2000 Gross Rate to Counties", as published in a letter from DMH to Local Mental Health Directors dated July 15, 1999, entitled "STATE HOSPITAL RATES AND PLANNING ASSUMPTIONS

FOR FISCAL YEAR 1999-00" which by this reference is made a part hereof, to the county's contracted beds, less \$22.56 per day to reflect the application of anticipated revenue.

6. Any County use in excess of the contracted amount, as defined in II, PART A, Section 9(A)(2), or Section 19(D) for the SCBP, during the 1999-00 fiscal year, shall be an additional cost to the county and collected by adjusting the State Controller's Schedule "B" in February 2000 and August 2000.
7. To the degree that revenue projections are not realized, the county shall be responsible for the cost of its State Hospital use up to the 1999-00 Gross Rate to Counties" published in ATTACHMENT "A" of the DMH letter referenced in #5 above. Determination of available revenue shall be completed by the State by September 30, 2000.
8. If the pro rata share payments do not equal the total contract amount, the county shall pay the difference to the State for deposit to the State Hospital Account of the Mental Health Facilities Fund. The final County payment is due after adjustments are made according to WIC 4330(d) "Distribution of unencumbered funds." See paragraph 10 below.
- 9: If the State borrows money because a county elects a pro rata share, there may be an interest charge levied against the County. Interest charged by the State Controller for the loan of money is in addition to and separate from the County Performance Contract which encompasses State Hospital Services.
10. During Fiscal Year 1999-00 the State and the Counties shall review the current method of identifying, organizing, reporting and charging for state hospital ancillary services. The product of these efforts shall clearly define the methodology to be used in subsequent contracts to identify and categorize these services and fairly reimburse the State for the associated costs.
13. Should a dispute arise relating to any issue within PART II of this contract, the County shall, prior to exercising any other remedies which may be available, except those described in Section 6.C. of PART II, provide written notice within a thirty-day period of the particulars of such dispute to:

Director
Department of Mental Health
1600 9th Street
Sacramento, CA 95814

Such written notice shall contain the contract number. The Director, or his designee, shall meet with the County, review the factors in the dispute before a written response is given to the County. The Director, or his designee, shall provide a written response within thirty days.

12. INDEMNIFICATION AND INSURANCE

- a. Except as provided in the following paragraph B., and to the extent authorized by law, and as provided for in Section 895 of the California Government Code the State shall indemnify and hold harmless the County, its officers, agents and employees from all claims, losses and demands or actions for injury or death of persons or property damage arising out of acts or omissions of the State, its officers, agents or employees in performance related to PART II of this Contract.
- b. County warrants that it is self-insured or maintains policies of insurance placed with reputable insurance companies licensed to do business in the State of California which insure the perils of bodily injury, medical, professional liability and property damage. The County shall indemnify and hold harmless and defend the State, its officers', agents and employees from all claims, losses and demands or actions for injury or death of persons or damages to property arising out of acts or omissions of the County, its officers, agents or employees in performance related to PART II of this Contract.

13. LICENSES AND LAW

The State, its officers, agents, employees and subcontractors shall, throughout the term of this Agreement, maintain all licenses, permits, approvals, certificates, waivers and exemptions necessary for the provision of the services hereunder and required by applicable laws and regulations. The State shall immediately notify the County in writing of its inability to obtain or maintain, irrespective of the pendency of an appeal, such permits, licenses, approvals, certificates, waivers and exemptions.

For the 1999-00 Performance Contract the following methodology will be used to calculate the county's use of state hospital resources, if any, in excess of the contract amount specified in this Agreement.

- A. Excess use will be calculated **twice** during the fiscal year—once in January 2000 for the first six (6) month period and again in July 2000 for the second six (6) month period. County LPS patients at Atascadero or Patton **State Hospitals** are charged to the ICF-Psychiatric Subacute cost center at the County's hospital of primary use — Metropolitan or **Napa** State Hospital. The County will be charged the contract amount of the actual cost of the County's state hospital use whichever is greater.
