JOHN A. FANTHAM  
DIRECTOR OF PUBLIC WORKS

### AGENDA: AUGUST 22, 2000

August 14, 2000

SANTA CRUZ COUNTY BOARD OF SUPERVISORS  
701 Ocean Street  
Santa Cruz, California 95060

SUBJECT: REGIONAL TRANSPORTATION PLAN PROJECTS

Members of the Board:

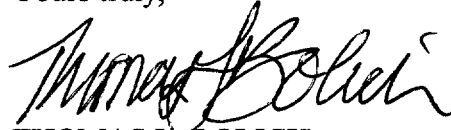

The Santa Cruz County Regional Transportation Commission (SCCRTC) has issued a call for transportation improvement projects for inclusion in the future Regional Transportation Plan (RTP). The RTP's primary goal is to identify transportation improvements that will address the region's mobility and accessibility requirements for the future. It also is a key requirement of many federal and state grant funding sources.

Projects submitted for inclusion in the RTP must be prioritized high, medium, or low, One third of the projects submitted by the County are allowed to be high priority projects. High priority projects are financially constrained projects, which can be constructed over a 20-year period using foreseeable revenues. Medium or low priority projects are unconstrained projects for which funding has not been identified. However, as long as all major roads are included in the RTP, funding can be **shifted** to accommodate future priority changes as recommended by your Board.

The Public Works Department has prepared the attached RTP improvement project list that covers 123 roadways and a county-wide general maintenance and rehabilitation program with a total final cost of \$33 1.5 million. The proposed improvements were developed based upon consideration of operational issues, congestion, safety, and anticipated demand for alternative modes of travel. As requested by the SCCRTC, the list has been prioritized for your Board's approval.

It is therefore recommended that the Board of Supervisors approve the attached list of prioritized County projects for submittal to the Santa Cruz County Regional Transportation Commission.

Yours truly,

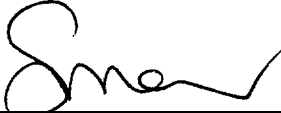

THOMAS L. BOLICH  
Acting Director of Public Works
