### RE: APPLICATION FOR CALIFORNIA HEALTHCARE FOR INDIGENTS PROGRAM (CHIP) FUNDING FOR FY 2000-01

Dear Board Members:

The California Healthcare for Indigents Program (CHIP) which is funded by Proposition 99 Tobacco Tax revenues was reauthorized for fiscal year 2000-01. Consequently, CHIP funds are available to help finance the delivery of health care services to low-income individuals not otherwise eligible for state or federally sponsored assistance. As in the past, to obtain these funds the County must apply to the State Department of Health Services. A copy of the application is attached to this letter.

The Application for CHIP Funding requires that the County provide the State various assurances regarding County compliance with the provisions of law applicable to the receipt and use of Tobacco Tax funds. These are the same assurances the County made in last year's CHIP Standard Agreement and will not create new obligations. The application is an administrative process used by DHS to determine participation in CHIP and the allocation of funds. Its execution is required before the State will allow CHIP funds to be released.

Following receipt of the Application, a Standard Agreement requiring Board approval is issued by DHS. It is the Standard Agreement that governs the County's use of CHIP funds. It is possible that the Standard Agreement may contain revisions to the assurances and requirements specified in the Application for Funding but such changes are not normally substantive in nature.

CHIP funding is established in the enabling legislation but is subject to change. The Department of Finance may recommend reductions if Tobacco Tax revenue falls below projected levels. The legislature may also reallocate funds among the many programs supported by the tobacco tax or redirect funds to support state programs, as it elected to do in this and previous budgets. The

Board of Supervisors

CHIP allocation table recently received from the State indicates that overall CHIP funding has been increased by seventeen percent compared to FY 99-00. This increase is somewhat misleading, however, since the state implemented a second round of reductions in July 2000 that were retroactive to FY 99-00. That had the effect of reducing overall CHIP funding from FY 98-99 levels by fifty-seven percent rather than the forty-nine percent that was previously reported to your Board. The Indigent Care budget as approved in June anticipated continued funding at the preJuly reduction level.

While the total CHIP allocation for FY 00-01 is \$1,326 above the funding level anticipated in the indigent care budgets, the amounts allocated to each account that make up CHIP vary from the budgeted amounts. Compared to the final budget, the Hospital allocation is \$28,230 below budget, the Physician allocation is \$14,917 below budget, and the Other Services allocation is \$44,473 above budget. As a result, it is necessary to make adjustment to the Indigent Care budget to realign revenue and expenditures in accordance with allocations now available. The attached Resolutions will make the necessary adjustment to the CHIP accounts with a net increase of \$1,326 in CHIP revenue and expenditures for this fiscal year.

Given the County's experience with the state over the past two years with respect to CHIP, there seems to be diminishing assurance that the amounts specified in the FY 00-01 allocation tables will be forthcoming. As noted above, two separate reductions were made to last year's allocation with the second reduction coming after the close of the fiscal year resulting in recoupment action initiated by the State. The Other Services account is of particular concern because it directly supports Medi-Cruz activities. That account was reduced from \$215,891 in FY 98-99 to \$6,059 in FY 99-00, a ninety-seven percent drop. These dramatic changes bear no relationship to the actual decline in tobacco tax revenues. The FY 00-01-allocation restores funding to the Other Services account back up to \$74,592 but it remains a likely target for state recoupment. Notably, it accounts for all of the growth in CHIP funding for this year.

The precariousness of CHIP funding, when considered in relation to Child Health and Disability Prevention (CHDP) treatment obligation, requires careful review of the County's perceived benefits from continued participation in CHIP. The previous financial benefit to the indigent care program has essentially been eliminated. However, the benefits to Dominican and Watsonville hospital and the patients they serve cannot be ignored. If the County declined to participate in CHIP, the hospitals would be the major losers. CHIP funds do soften the impact of diminishing safety net programs while the roles of the uninsured continue to grow. A decision not to secure available CHIP funds for the hospitals could result in greater demands for Medi-Cruz to broaden its coverage or improve payment levels. HSA remains disappointed with the State's failure to address the pressing financial issues associated with the provision of indigent medical services.

It is, therefore, RECOMMENDED that your Board:

- 1) Approve the attached Application for California Healthcare for Indigents Program (CHIP) Funding for Fiscal Year 2000-01 and authorize the Health Services Agency Administrator to sign;
- 2) Authorize the Health Services Agency Administrator to sign the State Standard Agreement for CHIP funding when received provided that any revisions to the assurances or

requirements contained in the funding Application are minor and there are no new County obligations; and

- 3) Adopt the attached resolution revising projected revenues and expenditures within the Medi-Cruz program budget as described above.
