I have a strong belief in Resource Conservation—using the least amount of materials to do the job that will last as long as possible, and in Education and ^{communication} information through example. I believe the SCCRCD is the best place to do that.

Thank You.

I am interested in serving another term as director for the Santa Cruz County Resource Conservation District. I believe strongly in the non-regulatory approach to achieve environmental protection and enhancement as promoted by the RCD. The RCD is a reliable source of easily accessed information for landowners, land managers, and land users; I thoroughly enjoy being a part of the program to deliver this information.

My work as a local Consulting Forester compliments the varied make-up of the District Board. I have a strong understanding of **wildland** ecology and utilization. In my work I strive to find a balance between resource protection, production, and utilization, both in my profession and as a director.

While I have been on the Board I have been active on numerous committees, had an excellent attendance record, participated in most events, represented the District as a voting delegate with the California Association of Resource Conservation Districts, and been elected Vice President by my fellow Directors.
