SANTA CRUZ COUNTY BOARD OF SUPERVISORS

701 Ocean Street
Santa Cruz, California 95060

SUBJECT: GRAHAM HILL ROAD LONGITUDINAL GROOVING PROJECT

Members of the Board:

The special provisions and engineer's estimate for the Graham Hill Road Longitudinal Grooving Project are complete and presented here for your consideration and approval. This project is designed to improve the riding characteristics of a critical 550 meter (1,700 ft.) section of Graham Hill Road south of Roaring Camp. As your Board is aware, the Public Works Department is also pursuing the larger Graham Hill Road Improvement Project in this same project corridor area, which is scheduled for the 2002/2003 construction year. In the interim, however, the Longitudinal Grooving Project is expected to greatly improve the operation of this critical segment of the roadway and enhance motorists' safety until such time as the larger Graham Hill Road Improvement Project can be completed.

The engineer's estimate for the subject project is \$25,000, not including contingencies and administration. This estimate includes \$3,000 set aside for the cost of potential weather delays. Sufficient funding for this project is available in the approved 2000/2001 Road Fund.

It is therefore recommended that the Board of Supervisors take the following action:

1. Approve the special provisions and engineer's estimate, and authorize calling for bids.
2. Set bid opening for 10:45 a.m. on November 14, 2000.

3. Direct the Clerk of the Board to advertise a Notice to Contractors for a **ten-** day period beginning October 29, 2000, in accordance with provisions of the Public Contract Code Section 20392.

Yours truly,

THOMAS L. BOLICH
Director of Public Works
