THOMAS L. BOLICH
DIRECTOR OF PUBLIC WORKS

AGENDA: APRIL 17, 2001

April 5, 2001

SANTA CRUZ COUNTY BOARD OF SUPERVISORS

701 Ocean Street

Santa Cruz, California 95060

SUBJECT: CONSTRUCTION AND DEMOLITION WASTE RECYCLING

Members of the Board:

On February 27, 2001, your Board considered a report from Public Works on various options for recycling of construction and demolition (C&D) wastes. At that time, your Board directed Public Works to meet with representatives of the local debris box hauling industry and the local construction industry to develop a consensus on the most appropriate and effective C&D waste recycling strategies for the County to pursue and to report back on April 17, 2001.

While an informative session was held with representatives of the local debris box hauling industry on March 23, 2001, meetings with the Builders Exchange have been delayed due to staff illness and cancellations; April 10, 2001, is now the target meeting date. In addition, a Public Works sponsored public forum inviting local builders, contractors and roofers to discuss possible C&D recycling options is scheduled for April 19, 2001.

As a result of these delays, it is recommended that your Board defer consideration of a report from the Department of Public Works summarizing comments and recommendations from the local debris-box hauling industry and the local construction industry, including staff recommendations, until June 5, 2001.

Yours truly,

For THOMAS L. BOLICH
Director of Public Works
