SANTA CRUZ COUNTY BOARD OF SUPERVISORS

701 Ocean Street
Santa Cruz, California 95060

SUBJECT: LOMPICO ROAD STORM DAMAGE REPAIR PROJECT, P.M. 2.2
OES 96-07-001, DSR NO. 028

Members of the Board:

The plans, specifications, and engineer's estimate for the subject storm damage repair project are now complete and presented here for your consideration and approval. The work provides for the repair of the storm damaged portion of Lompico Road through the construction of approximately fifty-four lineal feet of concrete cribwall, drainage facilities, guardrail, pavement repair, and erosion control preventative measures.

The project, as presented, is limited to those repairs included in the approved Damage Survey Reports (DSR), so as to return the damage site to its original pre-disaster condition. The plans and specifications provide for a repair which essentially matches the existing roadway in the vicinity of the repair site, pursuant to the Federal Emergency Management Agency's (FEMA) approved scope of work and available funding. In those instances where the funding approved for a DSR repair falls short of the actual bid price, we will submit a supplemental funding request to FEMA requesting that they cover the full cost of repair.

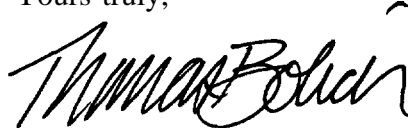

The engineer's estimate for this work is \$85,200.00 not including contingencies or administration costs. Sufficient funding for the project was included in the approved 2000/200 1 Road Program.

It is therefore recommended that the Board of Supervisors take the following action:

1. Approve the plans, specifications, and engineer's estimate and authorize calling for bids for the Lompico Road Storm Damage Repair Project, P.M. 2.2.

2. Set the bid opening for 10:45 A.M. on June 19, 2001.
3. Direct the Clerk of the Board to advertise a Notice to Contractors for a ten-day period beginning May 27, 2001, in accordance with the provisions of Public Contract Code Section 203 92.

Yours truly,

THOMAS L. BOLICH
Director of Public Works
