To whom it may concern;

My interest in serving on the advisory board for the Workforce Investment Board of Santa Cruz County stems from a desire to contribute to the board my domain expertise from the technology industry. Over the past year, I have been representing my company, Thuridion Software Engineering, on the 1000 Job's committee for the Santa Cruz Cluster project, and have worked closely with Kathy Zwart. Ms. Zwart has been a great contributor to the committee, and through her I learned of the WIB, its goals and the potential contribution I could make. As a local area executive, Vice President of a software company for the past five years, and a founding board member of Lighthouse Venture Forum (a technology and business networking non-profit organization), I believe I can contribute industry knowledge and potential connections to the local technology businesses. In addition, a personal goal for 2002 is to work more closely within the community to create jobs for under-represented groups of people, and WIB is an organization I believe can help me to achieve this goal.

Please do not hesitate contact me with any questions.

Sincerely,

Tonée Picard
