REQUEST TO ADVERTISE: C02 Feed System at the Simpkins Swim Center, #01C1-011

Members of the Board:

As part of the FY 01/02 Parks Plant Budget, your Board has allocated funds to provide labor and materials for the C02 Feed System at the Simpkins Swim Center. This project will consist of the installation of a carbon dioxide feed system that is compatible with and capable of being automatically controlled by the Strantrol automatic monitoring system already in use at the Swim Center. The C02 Feed System reduces carbon dioxide consumption and regulates the level of alkalinity in the water used by the pools at the Swim Center. The carbon dioxide feed system will serve the four pools at the Simpkins Swim Center. Architectural services have been provided by Aquatic Commercial Consulting, Rich Young & Associates for this project. Plans and specifications have been completed and these items and associated documents related to this project must be approved by your Board prior to solicitation of written proposals. Funds for this project are available in Budget Index 333100, Sub Object 3405. The Engineer's estimate for this project is \$20,000.

It is therefore **RECOMMENDED** that your Board take the following actions:

1. Approve plans and specifications on file with the Clerk of the Board for the C02 Feed System at the Simpkins Swim Center;
2. Direct the General Services Department to advertise for bids; and
3. Set the bid opening for 10:45 a.m. on April 9, 2002.

Very truly yours,

BOB WATSON
Director
