RE: Application for Appointment
Building and Fire Code Appeals Board

STATEMENT OF INTEREST AND QUALIFICATION

I am always interested in serving my community. I was born and raised several parts of this county and participate in volunteer activities at every opportunity. Our family of six kids was low income with a single struggling mom. I feel an obligation to repay the community that helped us during those hard times.

I know many of the strengths and weaknesses of the area, demographically, economically and socially. More importantly for the purposes of this application I am familiar with the building trades and the problems that exist here with code enforcement and construction standards. I have worked for General Contractors and Electrical Contractors in residential, commercial and industrial construction for over **20** years before becoming an Electrical Contractor myself.

Assisting local government with my technical knowledge and experience is a way I can use my expertise to benefit the people of our county. Citizenship, fairness and ethics have always been important values in my development and I hope I can contribute something to the quality of life and the quality of government by the people through participation on this Board.

Sincerely yours,

Dan Bronson
