Santa Cruz, California

Closeout Action for Phase II Jail Security Upgrade (Project Q17150)

Dear Members of the Board:

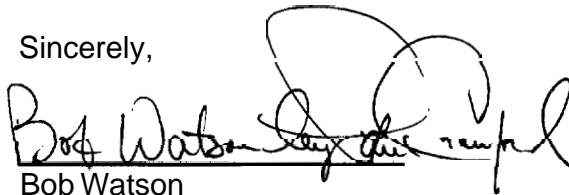

On October 1, 2001 the Department of General Services authorized a relocation and re-installation of thirty (30) bunk beds, which had been relocated at the County Main Jail facility in Santa Cruz during the Phase II Jail Security Upgrade construction project for security and logistical purposes. This action, which had not been anticipated in the project schedule originally, was performed by the on site construction subcontractor under a separate purchase order. The installation ensured the County's compliance with the Board of Corrections grant for the project, which required a minimum number of beds for inmates be maintained; the work did not result in an increase of beds on site. The Board of Corrections inspected the project site last month, approving the installation.

Financing for this action was provided within the project's designated funding, through the Capital Projects budget for the Main Jail (Index 191120, Subobject 6610, Project Q17150).

It is therefore **RECOMMENDED** that your Board:

1. Approve and ratify the installation of thirty (30) bunk beds at the County Main Jail at a cost of \$16,500; and
2. Authorize the Auditor Controller to process payment in the amount of \$16,500 to Rehak Construction for this work.

Sincerely,

Bob Watson
General Services Director
