

## Santa Cruz **County Housing** Advisory Commission

The Housing Advisory Commission views its responsibilities as: monitoring the evolving housing situation in Santa Cruz County, examining current trends and issues, looking at other jurisdictions to investigate possible solutions to housing problems, evaluating County policies and ordinances which impact housing production and preservation, and making recommendations to the Board of Supervisors.

The Housing Advisory Commission does not make recommendations regarding proposed development projects. However, the HAC may take a look at such projects as part of its overall charge to monitor housing and advise the Board of Supervisors.
