Application: 99-0185
Item: 15

Subject: A public hearing to consider a proposal to rezone three parcels of record from the Special Use (SU) and Residential Agriculture (RA) zone districts to the Timber Production (TP) zone district.

Members of the Commission:

On March 29, 1999, the County Planning Department accepted this application for rezoning three parcels totaling about 24.5 acres from the Special Use (SU) and Residential Agriculture (RA) zone districts to Timber Production.

Background and Discussion

The property owners, Roger and Michele Burch, also own approximately 82.47-acre Timber Production zoned parcel, APN 099-151-01, which is contiguous with the subject property. The uses on the property consist of timber production.

This project qualifies for a rezoning under California Government Code Section 51113.5 "Petition by owner to add to timberland production zone." This section allows a property owner with TP-zoned land to petition the County to rezone contiguous land not zoned TP to the TP zone. The only requirements for this type of rezoning are that the parcels must meet the definitions of Government Code Section 51104(f), (g) and (h)¹. The County may not place any additional requirements on this petition to rezone the property to TP.

¹ Government Code Section 51104

(f) "Timberland means privately owned land, or land acquired for state forest purposes, which devoted to and used for growing and harvesting timber, or for growing and harvesting timber, or for growing and harvesting timber and compatible uses, and which is capable of growing an average annual volume of wood fiber of at least 15 cubic feet per acre.

(g) "Timberland production zone" or "TPZ" means an area which has been zoned pursuant to Section 51112 and 51113 and is devoted to and used for growing and harvesting timber, or for growing and harvesting timber and compatible uses, as defined in subdivision (h).

(h) "Compatible use" is any use which does not significantly detract from the use of the property for, or inhibit, growing and harvesting timber, and shall include, but not be limited to, any of the following, unless in a specific instance such a use would be contrary to the preceding definition of compatible use:

(1) Management for watershed.

(2) Management for fish and wildlife habitat or hunting and fishing.

(3) A use integrally related to the growing, harvesting and processing of — products, including but not limited to roads, log landings, and log storage areas.

(4) The erection, construction, alteration, or maintenance of gas, electric, water, or communication transmission facilities.

(5) Grazing.

(6) A residence or other structure necessary for the management of land zoned as timberland production.

In accordance with Section 51113.5 of the State Government Code, **the** project meets the following criteria for rezoning to Timber Production:

- The property is contiguous with Timber Production zoned property under the ownership of one person, as defined in Section 38106 of the Revenue and Taxation Code (Exhibit C).
- **The** property is timberland, as it is capable of producing an average of 15 cubic feet of timber per acre annually (Exhibit E).
- The **uses** on the parcels comply with **the** Timber Production Zone **uses** set forth in Section 13.10.372.

This project qualifies for a statutory exemption in accordance with the California Environmental Quality Act and the County Environmental Review Guidelines (Article 17, Section 1703).

Conclusion

All of the criteria have been met for rezoning the subject parcels to the Timber Production zoning designation. **All required** findings can be made to approve this application pursuant to California State Government Code Section 51113.5.

Recommendation

It is recommended that the Commission adopt Resolution (Exhibit A), sending **a** recommendation to the Board of Supervisors for approval of Application 99-01**85**, to adopt **the** Ordinance rezoning the property to the TP zone district.

Dear Mr. Almquist:

Re: Re-zoning to TPZ under Government Code **51113.5**

I am a Registered Professional Forester with Bachelor of Science and Master of Science degrees in Forestry and over **40** years of forestry experience. I have personally examined and am familiar with the soil, vegetation and timber characteristics of Assessor Parcels Numbered **099-131-03, 099-161-08, and 12** owned by Roger Burch. These parcels have been part of timber harvest plans approved by the California Department of Forestry for many years including **THP 1-92-296 SCR**. They are redwood forest and mixed evergreen forest, and in my professional judgement have an average growth potential within the range of Site Index III. Site Index III is capable of growing approximately **180** cubic feet of wood per year over a **100** year period (Empirical Yield Tables for Young Growth Redwood by Lindquist & Palley, 1962).

These parcels meet the criteria of subdivision (f) of Section **51104** of the Government Code. They are "contiguous" to other Burch Timber Production lands namely **APN 099-141-01 and 151-01**.

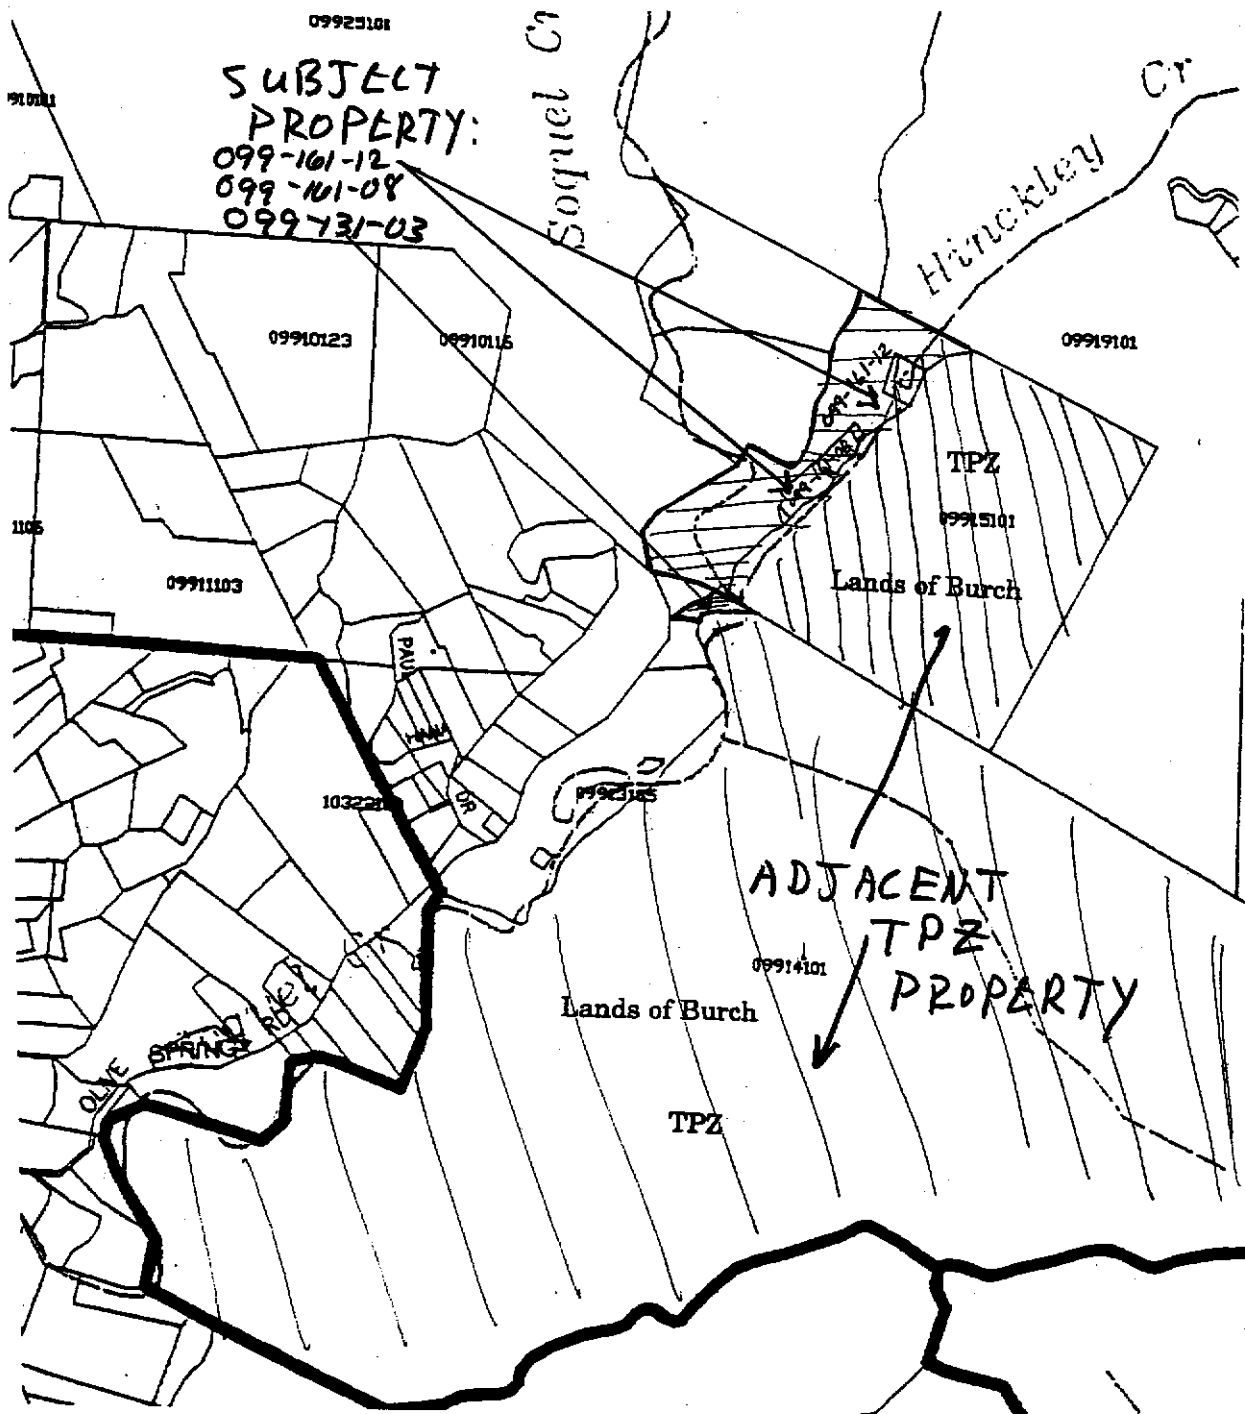

Sincerely,

Peter A Twight RPF 2555
