Planning Commission
County of Santa Cruz
701 Ocean Street
Santa Cruz, CA 95060

Agenda Date: April 9, 2008

APN: 089-011-57,59

Application: 07-0596

Item #: 27

Time: After 9 AM

Subject: A public hearing to consider a proposal to rezone property from the Special Use (SU) zone district to the Timber Production (TP) zone district.

Members of the Commission:

On September 21, 2007, the County Planning Department accepted this application for a rezoning to Timber Production (TP). This is a proposal to rezone a 51-acres from the Special Use (SU) zone district to the Timber Production (TP) designation. The uses on the property consist of vacant rural acreage.

Background

This project qualifies for a rezoning under California Government Code Section 51113. This section allows a property owner to petition the County to rezone land to the TP zone. The requirements for this type of rezoning are listed in Government Code section 51113(c)¹. The County may not place any additional requirements on this petition to rezone the property to TP. County Code Section 13.10.375(c) – “Zoning to the TP District” implements Government Code section 51113 and specifies the six criteria which must be met in order to rezone to TP.

¹ c) On or before March 1, 1977, the board or council by ordinance shall adopt a list of criteria required to be met by parcels being considered for zoning as timberland production under this section.

The criteria shall not impose any requirements in addition to those listed in this subdivision and in subdivision (d). The following shall be included in the criteria:

(1) A map shall be prepared showing the legal description or the assessor's parcel number of the property desired to be zoned.

(2) A plan for forest management shall be prepared or approved as to content, for the property by a registered professional forester.

The plan shall provide for the eventual harvest of timber within a reasonable period of time, as determined by the preparer of the plan.

(3) (A) The parcel shall currently meet the timber stocking standards as set forth in Section 4561 of the Public Resources Code and the forest practice rules adopted by the State Board of Forestry and Fire Protection for the district in which the parcel is located, or the owner shall sign an agreement with the board or council to meet those stocking standards and forest practice rules by the fifth anniversary of the signing of the agreement. If the parcel is subsequently zoned as timberland production under subdivision (a), failure to meet the stocking standards and forest practice rules within this time period provides the board or council with a ground for rezoning of the parcel pursuant to Section 51121.

(B) Upon the fifth anniversary of the signing of an agreement, the board shall determine whether the parcel meets the timber stocking standards in effect on the date that the agreement was signed.

Notwithstanding the provisions of Article 4 (commencing with Section

51130), if the parcel fails to meet the timber stocking standards, the board or council shall immediately rezone the parcel and specify a new zone for the parcel, which is in conformance with the county general plan and whose primary use is other than timberland.

(4) The parcel shall be timberland, as defined in subdivision (f) of Section 51104.

(5) The parcel shall be in compliance with the compatible use ordinance adopted by the board or council pursuant to Section 51111.

(d) The criteria required by subdivision (c) may also include any or all of the following:

(1) The land area concerned shall be in the ownership of one person, as defined in Section 38106 of the Revenue and Taxation Code, and shall be comprised of single or contiguous parcels of a certain number of acres, not to exceed 80 acres.

(2) The land shall be a certain site quality class or higher under

Section 434 of the Revenue and Taxation Code, except that the parcel shall not be required to be of the two highest site quality classes.

In accordance with County Code Section 13.10.375(c), the project meets the following six criteria for rezoning to Timber Production:

1. A map has been submitted with the legal description or assessor's parcel number of the property to be rezoned.
2. A Timber Management Plan, undated, prepared by a registered professional forester has been submitted for the property (Exhibit E).
3. The parcel currently meets the timber stocking standards as set forth in Section 4561 of the Public Resources Code and the Forest Practice Rules for the district in which the parcel is located (see Exhibit E).
4. The parcel is timberland, as the entire parcel is capable of producing a minimum of 15 cubic feet of timber per acre annually and is almost entirely located within a mapped Timber Resource area.
5. The uses on the parcel are in compliance with the Timber Production Zone uses set forth in Section 13.10.372.
6. The land area to be rezoned is in the ownership of one person, as defined in Section 38106 of the Revenue and Taxation Code, and is comprised of at least five acres in area.

This project qualifies for a statutory exemption (Exhibit D) in accordance with the California Environmental Quality Act and the County Environmental Review Guidelines (Article 17, Section 1703).

Conclusion

All of the criteria have been met for rezoning this parcel to the Timber Production zoning designation. All required findings can be made to approve this application and the rezoning is consistent with the General Plan policies and land use designations.

Recommendation

Staff recommends that your Commission adopt the attached Resolution (Exhibit A), sending a recommendation to the Board of Supervisors for approval of Application No. 07-0596 based on the attached findings (Exhibit B).

OF THE COUNTY OF SANTA CRUZ, STATE OF CALIFORNIA

RESOLUTION NO. _____

On the motion of Commissioner
duly seconded by Commissioner
the following Resolution is adopted:

PLANNING COMMISSION RESOLUTION
SENDING RECOMMENDATION TO THE BOARD OF SUPERVISORS
ON PROPOSED AMENDMENT TO THE ZONING ORDINANCE

WHEREAS, the Planning Commission has held a public hearing on Application No.07-0596 involving properties located west of Deer Creek Road, approximately 2.7 miles north of the intersection with Bear Creek Road, and the Planning Commission has considered the proposed rezoning, all testimony and evidence received at the public hearing, and the attached staff report.

NOW, THEREFORE, BE IT RESOLVED, that the Planning Commission recommends that the Board of Supervisors adopt the attached ordinance amending the Zoning Ordinance by changing properties from the Special Use (SU) district to the Timber Production zone district.

BE IT FURTHER RESOLVED, that the Planning Commission makes findings on the proposed rezoning as contained in the Report to the Planning Commission.

PASSED AND ADOPTED by the Planning Commission of the County of Santa Cruz, State of California, this _____ day of _____, 2008, by the following vote:

ORDINANCE NO. _____

**ORDINANCE AMENDING CHAPTER 13
OF THE SANTA CRUZ COUNTY CODE
CHANGING FROM ONE ZONE DISTRICT TO ANOTHER**

The Board of Supervisors of the County of Santa Cruz ordains as follows:

SECTION I

The Board of Supervisors finds that the public convenience, necessity and general welfare require the amendment of the County Zoning Regulations to implement the policies of the County General Plan and Local Coastal Program Land Use Plan regarding the timber resource property located west of Deer creek Road, approximately 2.7 miles north of the intersection with Bear Creek Road; finds that the zoning to be established herein is consistent with all elements of the Santa Cruz County General Plan and the Santa Cruz County Code, as modified by the *Big Creek* decision; and finds and certifies that the project is subject to a statutory exemption under the California Environmental Quality Act.

SECTION II

The Board of Supervisors hereby adopts the Zoning Plan Amendment as described in Section III, and adopts the findings in support thereof without modification as set forth below:

1. The proposed zone district will allow a density of development and types of uses which are consistent with the objectives and land use designations of the adopted General Plan; and
1. The proposed zone district is appropriate for the level of utilities and community services available to the land; and
2. The character of development in the area where the land is located has changed or is changing to such a degree that the public interest will be better served by a different zone district; and
3. The property meets the requirements of Government Code section 51113 or 51113.5 and County Code Section 13.10.375(c).

SECTION III

Chapter 13.10 - Zoning Regulations of the Santa Cruz County Code is hereby amended by amending Section 13.10.210 - Zoning Plan to change the following properties from the existing zone district to the new zone district as follows:

<u>Assessor's Parcel Number</u>	<u>Existing Zone District</u>	<u>New Zone District</u>
089-011-57,59	Special Use (SU)	TP

SECTION IV

This ordinance shall take effect on the 31st day after the date of final passage.

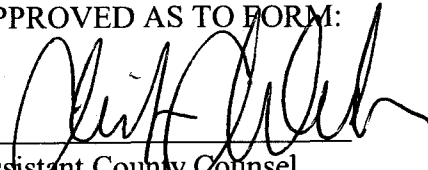

PASSED AND ADOPTED THIS _____ day of _____ 2008, by the Board of Supervisors of the County of Santa Cruz by the following vote:

CALIFORNIA ENVIRONMENTAL QUALITY ACT NOTICE OF EXEMPTION

The Santa Cruz County Planning Department has reviewed the project described below and has determined that it is exempt from the provisions of CEQA as specified in Sections 15061 - 15332 of CEQA for the reason(s) which have been specified in this document.

Application Number: 07-0596

Assessor Parcel Number: 089-011-57 & 59

Project Location: Property located west of Deer Creek Road, approximately 2.7 miles north of the intersection with Bear Creek Road.

Project Description: Rezone properties from the Special Use (SU) zone districts to the Timber Production (TP) zone district.

Person or Agency Proposing Project: Robert Armbrust, U/M

Contact Phone Number: (831) 278-0266

- A. ☐ The proposed activity is not a project under CEQA Guidelines Section 15378.
- B. ☐ The proposed activity is not subject to CEQA as specified under CEQA Guidelines Section 15060 (c).
- C. ☐ **Ministerial Project** involving only the use of fixed standards or objective measurements without personal judgment.
- D. ☒ **Statutory Exemption** other than a Ministerial Project (CEQA Guidelines Section 15260 to 15285). [Section 1703]

In addition, none of the conditions described in Section 15300.2 apply to this project.

Re: TPZ Rezoning of Santa Cruz County Assessor's Parcel #s 089-011-57 and 089-011-59

Maria,

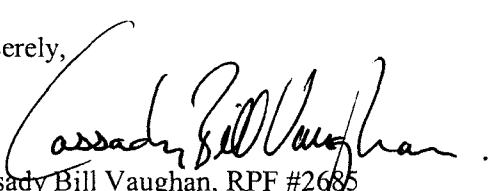

This letter requests re-zoning Santa Cruz County Assessor's Parcel #s 089-011-57 and 089-011-59 from their current Special Use (SU) designations to the Timber Production Zone (TPZ). Both parcels are owned solely by Robert Armbrust and meet the following criteria:

- 1) The parcels currently meet the timber stocking standards as set forth in Section 4561 of the Public Resources Code and the Forest Practice Rules adopted by the State Board of Forestry for the Southern Subdistrict of the Coast Forest District (See attached Stocking Analysis).
- 2) The parcels currently meet the definition of "Timberland" per Section 51104 (f) of the Government Code (See attached Wood Fiber Analysis).
- 3) The parcels currently meet the permitted use requirements per County Code Section 23.20.372 (See attached Compatible Use Analysis).
- 4) Parcel 089-011-59 was selectively harvested approximately 15 years ago under approved Timber Harvest Plan (THP # 1-92-154 SCR). Parcel 089-011-59 lies immediately south of this parcel and would make a logical addition to the harvest re-entry of the 1992 THP using non-ground based equipment. Parcel 089-011-57 is largely beholden to parcel 089-011-59 with respect to yarding options, as access is limited on the south side of the drainage which nearly bisects the two parcels. I strongly recommend that the two parcels be managed jointly.
- 5) Both parcels meet the minimum 5-acre size requirement.

Also attached:

- 1) Assessor's Parcel Map.
- 2) Timber Harvest Plan # 1-92-154 SCR Cover Page, Work Completion Report and Map, and a parcel/topographic overlay Map showing Parcel 089-011-57 more clearly.
- 3) A check payable to the County of Santa Cruz for the amount of Rezoning Application.

Sincerely,

Cassidy Bill Vaughan, RPF #2685

STOCKING ANALYSIS

Background: Government Code Section 51113(c)(3)(A) requires that timberland parcels meet the timber stocking standards set forth in Section 4561 of the Public Resources Code and Section 913.8(a)(1) of the California Code of Regulations (CCR). The timber stocking standards pertaining to CCR Section 913.8(a) are met if the timberland contains an average, minimum post-harvest basal area of at least 75 square feet/acre for Site III land. The requirements of PRC 4561 are less stringent.

Analysis: Field review of the properties suggests that the average dominant redwood and Douglas-fir trees exhibit Site III characteristics. Site III characteristics are defined under CCR 1060 as lands capable of growing redwood trees of 135-154 feet in 100 years, and Douglas-fir trees of 134-163 feet. As mentioned above, parcel 089-011-59 was selectively harvested approximately 15 years ago, which demonstrates the parcel's ability to sustain periodic harvests while maintaining the minimum basal area requirements cited above. Field review of parcel 089-011-57 suggests that this parcel is carrying similar if not greater timber volume, and as discussed, will only prove helpful in spreading overhead costs across a larger harvest project. Review of harvest layout confirms that the parcels can be harvested concurrently, under the current regulatory environment.

WOOD FIBER ANALYSIS

Background: Government Code Section 51113(c)(4) requires that parcels zoned timber production meet the definition of "Timberland" which is defined in Government Code Section 51104(f) as: "Privately owned land, or land acquired for state purposes, which is devoted to and used for growing and harvesting timber, or for growing and harvesting timber and compatible uses, and which is capable of growing an average annual volume of wood fiber of at least 15 cubic feet per acre".

Analysis: Field review of the parcels suggests that each is capable of producing wood fiber in excess of 15 cubic feet/acre/year. Soil productivity analysis confirms this observation. The property is underlain almost exclusively by Ben Lomond sandy loam which has proven to be one of the more productive timberland soils in Santa Cruz County and is listed in the USDA Soil Survey (1980) as "well-suited to the production of redwood and Douglas-fir", and based on field review, is currently producing upwards of 80 cubic feet of wood fiber/acre/year.

COMPATIBLE USE ANALYSIS

Parcel 089-011-59 demonstrated its ability to function as a standalone timber harvest unit and has since been used principally for recreational purposes. The harvest infrastructure remains intact and would certainly serve to conduct another selective harvest. Parcel 089-011-57 would be best managed from the existing features on 089-011-59 using non-ground based equipment whenever feasible. It appears that continued use in the manner described is both reasonable and compatible with present and foreseeable future uses for these parcels. The subject parcel is bordered on all sides by SU-zoned parcels, several of which have selectively managed for timber over the last few decades. Ten out of eleven of the parcels that adjoin the subject parcels are listed by the County as having a Timber Resource Overlay. Based on the success of the past harvest on Parcel 089-011-59, and the harvest opportunities on parcel 089-011-57, I believe that timber harvesting is not only compatible with the existing and potential future land use on-site, but in the greater neighborhood context as well. Only the County's reinterpretation of what constitutes an "allowable use" on SU parcels has brought into question the compatibility of timber production.
