**Subject: Bonny Doon Limestone Quarry Boundary Expansion Project and
Reclamation Plan Amendment Continued Public Hearing**

Members of the Commission:

On September 23rd, 2009 your Commission continued the public hearing on this project to October 28th 2009 to allow additional time for the applicant (CEMEX) and the Santa Cruz Water Department to continue discussions related to Liddell Spring. Additionally, a large volume of late correspondence was received for the September 23rd hearing. These comments have raised issues that require further evaluation. Therefore, staff recommends your Commission remove this item from the agenda for rescheduling and public noticing at a later date.

Sincerely,

David Carlson
