Re: App # 141212 "Cultural Resources Survey"

---

Hi Sheila,

I have reviewed and accepted the "Cultural Resources Survey" (dated 10/23/14) completed by EBI Consulting. No further information is required. Please add the following recommendations from the report to the "Conditions of Approval" identified in the first review:

- In the event that a concentration of artifacts or culturally modified soil deposits (including trash pits older than 50 years) should be encountered at any time during ground disturbing activities, all work must stop until a qualified archaeologist views the finds and makes a preliminary evaluation. If warranted, further archaeological work in the discovery area should be performed.
- Although unlikely, if human remains are encountered, all work must stop in the immediate vicinity of the discovery until the County Coroner and a qualified archaeologist evaluate the remains.
