Dear Mr. DiSalvo,

Thank you for including our team during yesterday’s discussion regarding the proposed development on Paul Sweet Road (Application #241360). We are always looking for opportunities to meet and collaborate with our community partners as we address issues concerning public safety.

Unfortunately, we will not be attending today’s public hearing due to scheduling issues and prior appointments. Despite our absence, our organization remains 100% committed to ensuring that all proposed, new, and existing infrastructure within our jurisdiction is adherent and compliant with all statute requirements set forth in the California State Fire Code.

Regarding application #241360, the associated plans were carefully and objectively evaluated by our professional staff and our third-party sub-contractor who approved the plans based on the highest standards as mandated by the State Fire Code. The plans were then resubmitted to the county in accordance with standard practice.

I'd like to invite any member of the public, or any stakeholder, to feel welcome to reach out to me or our organization at any time to discuss this application or any other matter concerning fire protection and public safety.

Thank you for your time. Please contact me if you have any questions.

Kind Regards,

**Central Fire District
of Santa Cruz County**

Ryan Peters
