Santa Cruz, CA 95060

Agenda Date: April 23, 2008
Agenda Time: after 9:00 AM
Item #: //
APN: 086-123-03
Application: 07-0577

Subject: A public hearing to consider a proposal to rezone a single lot of record from the Special Use (SU) zone district to the Timber Production (TP) zone district.

Members of the Commission:

On September 20, 2007, the County Planning Department accepted this application for a rezoning to Timber Production (TP). This is a proposal to rezone a 15 acre parcel from the Special Use (SU) zone district to the Timber Production (TP) designation. The use on the property consists of vacant rural acreage.

Background

This project qualifies for a rezoning under California Government Code Section 51113. This section allows a property owner to petition the County to rezone land to the TP zone. The requirements for this type of rezoning are listed in Government Code section 51113(c)¹. The County may not place any additional requirements on this petition to rezone the property to TP.

¹ c) On or before March 1, 1977, the board or council by ordinance shall adopt a list of criteria required to be met by parcels being considered for zoning as timberland production under this section.

The criteria shall not impose any requirements in addition to those listed in this subdivision and in subdivision (d). The following shall be included in the criteria:

(1) A map shall be prepared showing the legal description or the assessor's parcel number of the property desired to be zoned.

(2) A plan for forest management shall be prepared or approved as to content, for the property by a registered professional forester.

The plan shall provide for the eventual harvest of timber within a reasonable period of time, as determined by the preparer of the plan.

(3) (A) The parcel shall currently meet the timber stocking standards as set forth in Section 4561 of the Public Resources Code and the forest practice rules adopted by the State Board of Forestry and Fire Protection for the district in which the parcel is located, or the owner shall sign an agreement with the board or council to meet those stocking standards and forest practice rules by the fifth anniversary of the signing of the agreement. If the parcel is subsequently zoned as timberland production under subdivision (a), failure to meet the stocking standards and forest practice rules within this time period provides the board or council with a ground for rezoning of the parcel pursuant to Section 51121.

(B) Upon the fifth anniversary of the signing of an agreement, the board shall determine whether the parcel meets the timber stocking standards in effect on the date that the agreement was signed.

Notwithstanding the provisions of Article 4 (commencing with Section

51130), if the parcel fails to meet the timber stocking standards, the board or council shall immediately rezone the parcel and specify a new zone for the parcel, which is in conformance with the county general plan and whose primary use is other than timberland.

(4) The parcel shall be timberland, as defined in subdivision (f) of Section 51104.

(5) The parcel shall be in compliance with the compatible use ordinance adopted by the board or council pursuant to Section 51111.

(d) The criteria required by subdivision (c) may also include any or all of the following:

(1) The land area concerned shall be in the ownership of one person, as defined in Section 38106 of the Revenue and Taxation Code, and shall be comprised of single or contiguous parcels of a certain number of acres, not to exceed 80 acres.

(2) The land shall be a certain site quality class or higher under Section 434 of the Revenue and Taxation Code, except that the parcel shall not be required to be of the two highest site quality classes.

County Code Section 13.10.375(c) – "Zoning to the TP District" implements Government Code section 51113 and specifies the six criteria which must be met in order to rezone to TP.

In accordance with County Code Section 13.10.375(c), the project meets the following six criteria for rezoning to Timber Production:

1. A map has been submitted with the legal description or assessor's parcel number of the property to be rezoned.
2. A Timber Management Plan, undated, prepared by a registered professional forester has been submitted for the property (Exhibit E).
3. The parcel currently meets the timber stocking standards as set forth in Section 4561 of the Public Resources Code and the Forest Practice Rules for the district in which the parcel is located (see Exhibit E).
4. The parcel is timberland, as the entire parcel is capable of producing a minimum of 15 cubic feet of timber per acre annually and is almost entirely located within a mapped Timber Resource area.
5. The uses on the parcel are in compliance with the Timber Production Zone uses set forth in Section 13.10.372.
6. The land area to be rezoned is in the ownership of one person, as defined in Section 38106 of the Revenue and Taxation Code, and is comprised of at least five acres in area.

This project qualifies for a statutory exemption (Exhibit D) in accordance with the California Environmental Quality Act and the County Environmental Review Guidelines (Article 17, Section 1703).

Conclusion

All of the criteria have been met for rezoning this parcel to the Timber Production zoning designation. All required findings can be made to approve this application and the rezoning is consistent with the General Plan policies and land use designations.

Recommendation

Staff recommends that your Commission adopt the attached Resolution (Exhibit A), sending a recommendation to the Board of Supervisors for approval of Application No. 07-0577 based on the attached findings (Exhibit B).

OF THE COUNTY OF SANTA CRUZ, STATE OF CALIFORNIA

RESOLUTION NO. _____

On the motion of Commissioner
duly seconded by Commissioner
the following Resolution is adopted:

PLANNING COMMISSION RESOLUTION
SENDING RECOMMENDATION TO THE BOARD OF SUPERVISORS
ON PROPOSED AMENDMENT TO THE ZONING ORDINANCE

WHEREAS, the Planning Commission has held a public hearing on Application No.07-577 involving property located at the northeast intersection of Little Basin Road and Upper Bloom Grade Road, approximately 600 feet southeast of the intersection of Highway 236 and Little Basin Road, and the Planning Commission has considered the proposed rezoning, all testimony and evidence received at the public hearing, and the attached staff report.

NOW, THEREFORE, BE IT RESOLVED, that the Planning Commission recommends that the Board of Supervisors adopt the attached ordinance amending the Zoning Ordinance by changing property from the Special Use (SU) district to the Timber Production (TP) zone district.

BE IT FURTHER RESOLVED, that the Planning Commission makes findings on the proposed rezoning as contained in the Report to the Planning Commission.

PASSED AND ADOPTED by the Planning Commission of the County of Santa Cruz, State of California, this _____ day of _____, 2008, by the following vote:

ORDINANCE NO. _____

**ORDINANCE AMENDING CHAPTER 13
OF THE SANTA CRUZ COUNTY CODE
CHANGING FROM ONE ZONE DISTRICT TO ANOTHER**

The Board of Supervisors of the County of Santa Cruz ordains as follows:

SECTION I

The Board of Supervisors finds that the public convenience, necessity and general welfare require the amendment of the County Zoning Regulations to implement the policies of the County General Plan and Local Coastal Program Land Use Plan regarding the timber resource property located at the northeast intersection of Little Basin Road and Upper Bloom Grade Road, approximately 600 feet southeast of the intersection with Highway 236 and Little Basin Road; finds that the zoning to be established herein is consistent with all elements of the Santa Cruz County General Plan and the Santa Cruz County Code, as modified by the *Big Creek* decision; and finds and certifies that the project is subject to a statutory exemption under the California Environmental Quality Act.

SECTION II

The Board of Supervisors hereby adopts the Zoning Plan Amendment as described in Section III, and adopts the findings in support thereof without modification as set forth below:

1. The proposed zone district will allow a density of development and types of uses which are consistent with the objectives and land use designations of the adopted General Plan; and
1. The proposed zone district is appropriate for the level of utilities and community services available to the land; and
2. The character of development in the area where the land is located has changed or is changing to such a degree that the public interest will be better served by a different zone district; and
3. The property meets the requirements of Government Code section 51113 or 51113.5 and County Code Section 13.10.375(c).

EXHIBIT A

SECTION III

Chapter 13.10 - Zoning Regulations of the Santa Cruz County Code is hereby amended by amending Section 13.10.210 - Zoning Plan to change the following properties from the existing zone district to the new zone district as follows:

<u>Assessor's Parcel Number</u>	<u>Existing Zone District</u>	<u>New Zone District</u>
086-123-03	Special Use (SU)	TP

SECTION IV

This ordinance shall take effect on the 31st day after the date of final passage.

PASSED AND ADOPTED THIS _____ day of _____ 2008, by the Board of Supervisors of the County of Santa Cruz by the following vote:

CALIFORNIA ENVIRONMENTAL QUALITY ACT NOTICE OF EXEMPTION

The Santa Cruz County Planning Department has reviewed the project described below and has determined that it is exempt from the provisions of CEQA as specified in Sections 15061 - 15332 of CEQA for the reason(s) which have been specified in this document.

Application Number: 07-0577

Assessor Parcel Number: 086-123-03

Project Location: Property located at the northeast intersectin of Little Basin Road and Upper Bloom Grade Road, approximately 600 feet southeast of the intersection of Highway 236 and Little Basin Road.

Project Description: Rezone a single parcel from the Special Use (SU) zone district to the Timber Production (TP) zone district.

Person or Agency Proposing Project: John J. and Nancy A. Lingenann, Trustees

Contact Phone Number: (831) 469-3288

- A. ☐ The proposed activity is not a project under CEQA Guidelines Section 15378.
B. ☐ The proposed activity is not subject to CEQA as specified under CEQA Guidelines Section 15060 (c).
C. ☐ **Ministerial Project** involving only the use of fixed standards or objective measurements without personal judgment.
D. ☒ **Statutory Exemption** other than a Ministerial Project (CEQA Guidelines Section 15260 to 15285). [Section 1703]

In addition, none of the conditions described in Section 15300.2 apply to this project.

Re: TPZ Rezoning of Assessor's Parcel #086-123-03

Maria,

This letter requests re-zoning Santa Cruz County Assessor's Parcel #086-123-03 from its current Special Use (SU) designation to the Timber Production Zone (TPZ). The property is currently owned by John and Nancy Lingemann and meets the following criteria:

- 1) The parcel currently meets the timber stocking standards as set forth in Section 4561 of the Public Resources Code and the Forest Practice Rules adopted by the State Board of Forestry for the Southern Subdistrict of the Coast Forest District (See attached Stocking Analysis).
- 2) The parcel meets the definition of "Timberland" per Section 51104 (f) of the Government Code (See attached Wood Fiber Analysis).
- 3) The parcel meets the permitted use requirements per County Code Section 23.20.372 (See attached Compatible Use Analysis).
- 4) My site inspection confirmed that access and harvesting can be accomplished using ground-based equipment.
- 5) The parcel meets the minimum 5-acre size requirement.

Also attached:

- 1) Assessor's Parcel Map.

Sincerely,

Stephen R. Staub, RPF #1911

EXHIBIT E

STOCKING ANALYSIS

Background: Government Code Section 51113(c)(3)(A) requires the parcel to meet the timber stocking standards set forth in Section 4561 of the Public Resources Code and Section 913.8(a)(1) of the California Code of Regulations (CCR). The timber stocking standards pertaining to CCR Section 913.8(a) are met if the timberland contains an average, minimum post-harvest basal area of at least 75 square feet/acre for Site III land. The requirements of PRC 4561 are less stringent.

Analysis: Field review of the property on August 21, 2007 including measurement of individual trees and reconnaissance of tree cover over the entire parcel confirmed that the average dominant redwood and Douglas-fir trees on the property exhibit Site III characteristics. Site III characteristics are defined under CCR 1060 as lands capable of growing redwood trees of 135-154 feet in 100 years, and Douglas-fir trees of 134-163 feet. The parcel is well stocked with young growth redwood timber sufficient to sustain periodic harvests while maintaining the minimum basal area requirements cited above. Field review of parcel timber and topography confirms that the parcel is feasibly harvestable in the current regulatory environment.

WOOD FIBER ANALYSIS

Background: Government Code Section 51113(c)(4) requires that parcels zoned timber production meet the definition of "Timberland" which is defined in Government Code Section 51104(f) as: "Privately owned land, or land acquired for state purposes, which is devoted to and used for growing and harvesting timber, or for growing and harvesting timber and compatible uses, and which is capable of growing an average annual volume of wood fiber of at least 15 cubic feet per acre".

Analysis: Field review of the property suggests that the parcel is capable of producing wood fiber far in excess of 15 cubic feet/acre/year. Soil productivity analysis confirms this observation. Primary soil types are sandy loams of the Ben Lomond, Felton, and Catelli series, which are listed in the USDA Soil Survey (1980) as "well-suited to the production of redwood and Douglas-fir", and based on field review, are currently producing more than 100 cubic feet of wood fiber/acre/year.

COMPATIBLE USE ANALYSIS

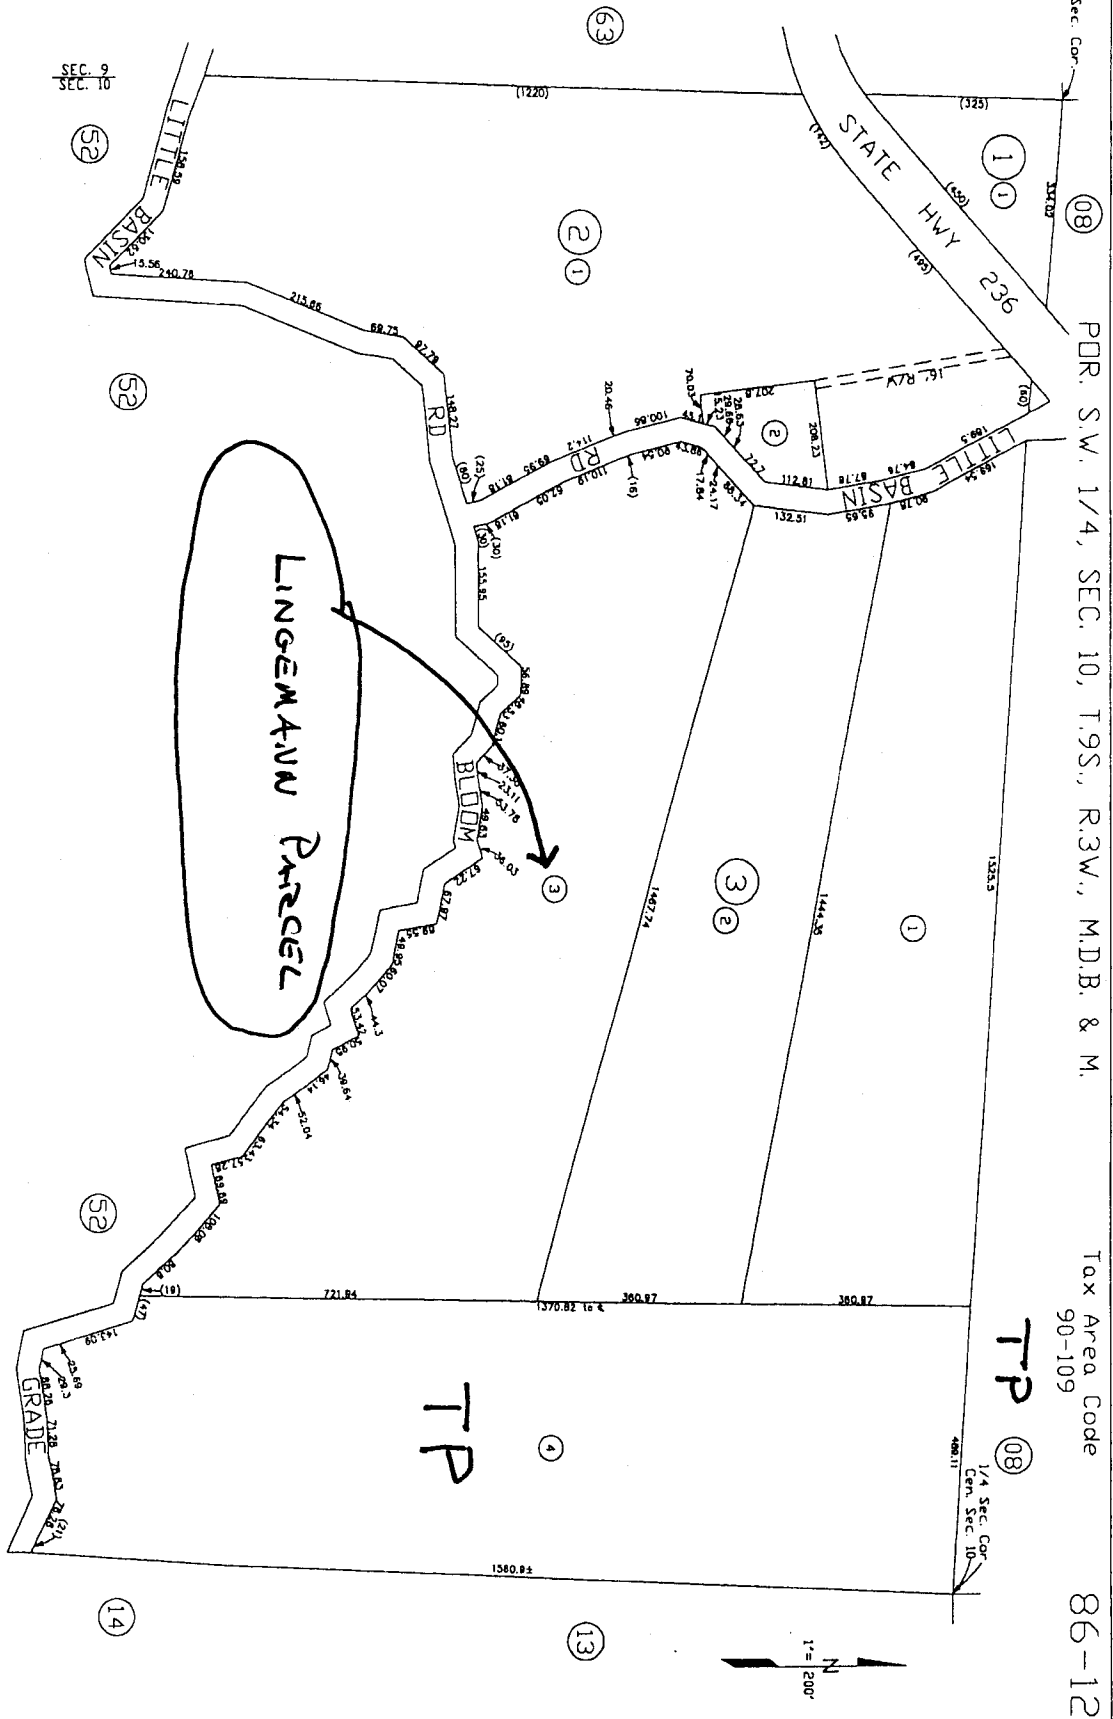

The subject parcel is currently undeveloped other than access into it over an existing dirt road on gentle terrain from Little Basin Road. Site review suggests that timber production and operations on the parcel could be compatible with an appropriately sited single family residence. The subject parcel is bordered on the north by two roughly 10 acre parcels with timber resources, on the east by a roughly 18 acre property zoned for timber production, which borders a 150 TP zoned parcel on its north, on the south by forested parcels of 23 and 27 acres, one of which is zone SU and the other owned by State Parks. Immediately west of the parcel and Little Basin Road is a forested parcel zoned SU used for camping on a non-profit basis. Little Basin Road has been used for log hauling in the past and provides suitable access for timber production purposes.

Subject: application 07-0577

The neighbors of Upper Bloom Grade would like to ensure that no adverse impacts would occur to the road if timber harvesting were to occur.

Whether this would be a condition of approval for the THP or a condition for the rezoning permit the use of this road for access with heavy equipment must be a consideration. Mitigation measures must be in place.

thank you
