Hi Rebecca,

I recently learned the Camp St Francis has a hearing this Friday on the fence erected on its property to recognize that the fence requires a Coastal Development permit and will be exempt from further environmental review.  
Hearing details attached.

I am writing to support Father Joseph's terrific work and support the fence.

What is Camp St Francis?

<https://www.campstfrancis.org>

Who Manages Camp St Francis?

Father Joseph (copied)

### Why was the fence erected?

The fence was erected because there were young people at night drinking and smoking in that corner, and twice we had to put out fires.

Secondly, we have children mostly in the facility, we are obliged by the diocese and our religious order norms to have people who are background checked and Child safety trained.

Thirdly as the corner is a big cliff- if anyone falls off the cliff, Camp St Francis may have a liability issue.

### Who Built the Fence?

Chris Anderson from Granite Rock built the fence.

Here is his bio Graniterock: Up Close with Chris Anderson

<https://www.graniterock.com/blogs/up-close-with-chris-anderson>

See attached fence specs.

### When is the hearing?

This Friday 12/20/2024- details in the attached hearing notice.

Father Joseph, Camp St Francis, and Camp Sea Lab do terrific work with young people in our community.

Please reach out with any questions.

Thank You

Jean
