

Staff Report to the Zoning Administrator

Application Number: 06-0530

Applicant: Paul Del Monte **Agenda Date:** April 6,2007

Owner: Eric Bodnar Agenda Item #: 1
APN: 032-212-21 Time: After 10:00 a.m.

Project Description: Proposal to demolish an existing single family residence and accessory structure on a double frontage lot and construct a three bedroom, two and a half bath single family dwelling.

Location: Property located west of East Cliff Drive between 33rd and 34* Avenues

Supervisoral District: 1st District (District Supervisor: Jan Beautz)

Permits Required: Coastal Development Permit

Staff Recommendation:

• Certification that the proposal is exempt from further Environmental Review under the California Environmental Quality Act.

• Approval of Application 06-0530, based on the attached findings and conditions.

History

In 1996, a coastal permit and variance (96-0578) were issued to build the existing house on the subject parcel and to reduce the front yard setback from 20-feet to about 17.5-feet. The associated building permit (#1 12774) was issued in 1996 with two change orders in 1997.

In 1998, an amendment to 96-0578 was issued (97-0693) to convert an existing habitable structure to a guest house and to construct a second story addition onto the guest house. The associated building permit (#119910) was finaled in 1998 with a change order in 1999.

The property owners of parcels 032-212-12 and 11 received approval **for** a lot line adjustment in 2002 (00-0712) to transfer about 1006 square feet from parcel 11 to parcel 12. This lot line adjustment resulted in the subject property 032-212-21 which is approximately 5,989 square feet.

Project **Setting**

The subject parcel is approximately 5,989 square feet and is developed with a two-story single family dwelling and a detached two story accessory dwelling unit. The parcel is zoned Single Family Residential – 4,000 square foot minimum (R-1-4) and has frontage on both 33rd Avenue, a non-county maintained road with a 25-foot **right** of way, and 34" Avenue, a public road with a 40-foot right of way.

1

Application #: 06-0530 APN: 032-212-21 Owner: Eric Bodnar

The southeast corner **of** the parcel is adjacent to East Cliff Drive, therefore **the** parcel is located within the East Cliff Drive Scenic viewshed.

Project Description

The property owner proposes to demolish the existing two story single family residence and detached two-story habitable accessory structure and construct a two story single family dwelling of about 3,000 square feet.

There will **be** a 12 to 14-foot wide driveway that will run about 55-feet along the north property line to provide access from 34" Avenue. This driveway was reduced from a previously proposed circular driveway in order to provide two 8.5-foot by 18-foot on-street public parking spaces along 34" Avenue. In addition, the property owner is proposing to finance a restriping of **a** portion of 34th Avenue, as detailed on sheet C2 of Exhibit A, to create safer turning area at the 34" Avenue - East Cliff Drive intersection.

On the west side of the parcel, there will be a 25-foot wide driveway that leads to a three car garage. This will be the primary parking area **for** the parcel.

Zoning & General Plan Consistency

The subject property is a 5,989 square foot lot, located in the R-1-4 (Single Family Residential – 4,000 square foot minimum) zone district, **a** designation which allows residential uses. The proposed single family residence is a principal permitted use within the zone district and the project is consistent with the site's (R-UM) Urban Medium Residential General Plan designation.

The proposed single family dwelling has been designed to comply with all R-1-4 (parcels >5,000 sq. ft.) zone district site standards, as shown in the following table:

	R-1-4 >5,000 sq. ft. Site Standards	Proposed
Front Yard Setback	20'	20' & 24'
Rear Yard Setback	N/A	N/A
Side Yard Setback	5' & 8'	5'5" & 12'
Maximum Height	28'	28'
Maximum % Lot Coverage	30%	25%
Maximum Floor Area Ratio	50%	47%

Road Widening/On-Street Parking

As a part of this project, the property owners will work with the Department of Public Works to re-stripe and widen the adjacent portion of 34" Avenue. During review *of* the plans, the Department of Public Works determined that the street width at the 34" Avenue – East Cliff Drive intersection is currently unsafe and asked to utilize the right of way to widen the road. The property owners agreed to finance the re-striping in this area and, as parking is limited in this area, have provided space for two tandem off-street parking spaces in the right of way off **of** the

Application #: 06-0530 APN: 032-212-21 Owner Eric Bodnar

traveled roadway. Sheet C2 of Exhibit A details the extent of the work to be completed prior to building permit issuance.

Local Coastal **Program** Consistency

The proposed single family residence is in conformance with the County's certified Local Coastal Program, in that the structure is sited and designed to be visually compatible, in scale with, and integrated with the character of the surrounding neighborhood. Developed parcels in the area contain single family dwellings. Size and architectural styles vary widely in the area, and the design submitted is not inconsistent with the existing range. **The** project site is not located between **the** shoreline and the first public road and is not identified as a priority acquisition site in the County's Local Coastal Program. Consequently, the proposed project will not interfere with public access to the beach, ocean, or other nearby body of water.

Design Review & Scenic Resources

The proposed single family dwelling will not be significantly different from the existing dwelling in terms of bulk, mass, and scale because the existing house is two stories and the proposed residence will be located almost entirely on the footprint of the existing house.

The Urban Designer reviewed the plans and determined that although the exterior design is compatible with the surrounding neighborhood, the flat roof tower feature located on the north wall of **the** proposed residence adds unnecessary bulk and mass to the proposed residence and creates an uncharacteristic number of roof formations including a half round roof, a flat roof and pitched roofs. The Urban Designer worked with the applicant to redesign several features on the home including siding distribution and roofing materials; however, the property owner is opposed to altering the flat roof in this location. The proposed flat roof will be located on the north end of the proposed home and will therefore not be visible from East Cliff Drive.

The proposed single family dwelling will not interfere with surrounding ocean views because the height of the proposed home will be the same as the existing home and the proposed landscaping will strengthen the visual edge along the street and from the East Cliff Drive scenic viewshed. The proposed residence will not be visible from the scenic beach viewshed.

The proposed single family dwelling complies with the requirements of the County Design Review Ordinance and Local Coastal Program, in that the proposed project will incorporate site and architectural design features such as cedar vertical siding and grey slate roofing to reduce the visual impact of the proposed development on surrounding land uses and the natural landscape.

Conclusion

As proposed and conditioned, the project is consistent with all applicable codes and policies of the Zoning Ordinance and General Plan/LCP. Please see Exhibit "B" ("Findings") for a complete listing of findings and evidence related to the above discussion.

Application #: 06-0530 Page 5

APN: 032-212-21 Owner: Eric Bodnar

Staff Recommendation

• Certification that the proposal is exempt from further Environmental Review under the California Environmental Quality Act.

• **APPROVAL of** Application Number **06-0530**, based on the attached findings and conditions.

Supplementary reports and information referred to in this report are on file and available for viewing at the Santa Cruz County Planning Department, and are hereby made a part of the administrative record for the proposed project.

The County Code and General Plan, as well as hearing agendas and additional information are available online at: www.co.santa-cruz.ca.us

Report Prepared By: Samantha Haschert

Santa Cruz County Planning Department

E-mail: samantha.haschert@co.santa-cruz.ca.us

Coastal Development Permit Findings

1. That the project is a use allowed in one of the basic zone districts, other than the Special Use (SU) district, listed in section 13.10.170(d) as consistent with the General Plan and Local Coastal Program LUP designation.

This finding can be made, in that the property is zoned R-1-4 (Single Family Residential – 4,000 square foot minimum), a designation which allows residential uses. The proposed single family residence is a principal permitted use within the zone district, consistent with the site's (R-UM) Urban Medium Residential General Plan designation.

2. That the project does not conflict with any existing easement **or** development restrictions such as public access, utility, or open space easements.

This finding can be made, in that the proposal does not conflict with any existing easement or development restriction such **as** public access, utility, or open space easements in that no such easements or restrictions are known to encumber the project site,

3. That the project is consistent with the design criteria and special use standards and conditions of this chapter pursuant to section 13.20.130et seq.

This finding can be made, in that the development is consistent with the surrounding neighborhood in terms of architectural style; the site is surrounded by lots developed to an urban density; the colors shall be natural in appearance and complementary to the site; the development site is not on a prominent ridge, beach, or bluff top.

In addition, the proposed single family dwelling will be integrated visually into the East Cliff Drive scenic viewshed because the home will not be significantly larger than the footprint of the existing home and appropriate landscaping will be installed along the street edge.

4. That the project conforms with the public access, recreation, and visitor-serving policies, standards and maps of the General Plan and Local Coastal Program land use plan, specifically Chapter 2: figure 2.5 and Chapter 7, and, as to any development between and nearest public road and the sea or the shoreline of any body of water located within the coastal zone, such development is in conformity with the public access and public recreation policies of Chapter 3 of the Coastal Act commencing with section 30200.

This finding can be made, in that the project site is not located between the shoreline and the first public road. Consequently, the single family residence will not interfere with public access to the beach because there is beach access located about 200-feet southwest of the subject parcel off of East Cliff Drive. Further, the project site is not identified as a priority acquisition site in the County Local Coastal Program.

5. That the proposed development is in conformity with the certified local coastal program.

This finding can be made, in that the structure is sited and designed to be visually compatible, in scale with, and integrated with the character of the surrounding neighborhood. Additionally,

Application #: 06-0530 APN: 032-212-21 Owner: Eric Bodnar

Development Permit Findings

1. That the proposed location of the project and the conditions under which it would be operated or maintained will not be detrimental to the health, safety, **or** welfare of persons residing **or** working in the neighborhood or the general public, and will not result in inefficient or wasteful use of energy, and will not be materially injurious to properties or improvements in the vicinity.

This finding can be made, in that the project is located in an area designated for residential uses and is not encumbered by physical constraints to development. Construction will comply with prevailing building technology, the Uniform Building Code, and the County Building ordinance to insure the optimum in safety and the conservation of energy and resources. The proposed single family residence will not deprive adjacent properties or the neighborhood of light, air, or open space, in that the structure meets all current setbacks that ensure access to light, air, and open space in the neighborhood.

2. That the proposed location of the project and the conditions under which it would be operated or maintained will be consistent with all pertinent County ordinances and the purpose of the zone district in which the site is located.

This finding can be made, in that the proposed location of the single family residence and the conditions under which it would be operated or maintained will be consistent with all pertinent County ordinances and the purpose of the R-1-4 (Single Family Residential • >5,000 square foot parcel) zone district in that the primary use of the property will be one single family residence that meets all current site standards for the zone district.

3. That the proposed use is consistent with all elements of the County General Plan and with any specific plan which has been adopted for the area.

This finding can be made, in that the proposed residential use is consistent with the use and density requirements specified for the Urban Medium Residential (R-UM) land use designation in the County General Plan.

The proposed single family residence will not adversely impact the light, solar opportunities, air, and/or open space available to other structures or properties, and meets all current site and development standards for the zone district as specified in Policy 8.1.3 (Residential Site and Development Standards Ordinance), in that the single family residence will not adversely shade adjacent properties, and will meet current setbacks for the zone district that ensure access to light, air, and open space in the neighborhood.

The proposed single family residence will not be improperly proportioned to the parcel size **or** the character of the neighborhood as specified in General Plan Policy **8.6.1** (Maintaining a Relationship Between Structure and Parcel Sizes), in that the proposed single family residence will comply with the site standards for the R-1-4 (parcels over >5,000 square feet) zone district (including setbacks, lot coverage, floor area ratio, height, and number of stories) and will result in a structure consistent with a design that could be approved on any similarly sized lot in the vicinity.

Application # 06-0530 APN: 032-212-21 Owner: Eric Bodnar

A specific plan has not been adopted for this portion of the County. A Pleasure Point specific plan is in the beginning stages of development; however, until a plan is officially adopted, development in the area is not required to comply with possible future design criteria.

4. That the proposed use will not overload utilities and will not generate more than the acceptable level of traffic on the streets in the vicinity.

This finding can be made, in that the proposed single family residence is to be constructed on an existing developed lot in place of an existing single family residence and habitable accessory structure. The expected level of traffic generated by the proposed project is anticipated to be only 1 peak trip per day (1 peak trip per dwelling unit) and such an increase will not adversely impact existing roads and intersections in the surrounding area.

5. That the proposed project will complement and harmonize with the existing and proposed land uses in the vicinity and will be compatible with the physical design aspects, land use intensities, and dwelling unit densities of the neighborhood.

This finding can be made, in that the proposed structure is located in a mixed neighborhood containing a variety of architectural styles, and the proposed single family residence is consistent with the land use intensity and density of the neighborhood.

6. The proposed development project is consistent with the Design Standards and Guidelines (sections 13.11.070 through 13.11.076), and any other applicable requirements of this chapter.

This finding can be made, in that the proposed single family residence will be of an appropriate scale and type of design that will enhance the aesthetic qualities of the surrounding properties and will not reduce or visually impact available open space in the surrounding area. The design of the proposed residence was approved by the County Urban Designer.

Application #: 06-0530 APN: 032-212-21 Owner:Eric Bodnar

Conditions of Approval

Exhibit A: Project plans, 8 pages, prepared by Ron Ragsdale and Michael Beautz, dated 1/07.

- I. This permit authorizes the construction of a single family residence and site improvements. Prior to exercising any rights granted by this permit including, without limitation, any construction or site disturbance, the applicantlowner shall:
 - A. Sign, date, and return to the Planning Department one copy of the approval to indicate acceptance and agreement with the conditions thereof.
 - B. Obtain a Demolition Permit from the Santa Cruz County Building Official.
 - C. Obtain a Building Permit from the Santa Cruz County Building Official.
 - D. Obtain an Encroachment Permit from the Department of Public Works for all off-site work performed in the County road right-of-way.
- II. Prior to issuance of a Building Permit the applicantlowner shall:
 - **A.** Submit proof that these conditions have been recorded in the official records of the County of Santa Cruz (Office of the County Recorder).
 - B. Submit final architectural plans for review and approval by the Planning Department. The final plans shall be in substantial compliance with the plans marked Exhibit "A" on file with the Planning Department. Any changes from the approved Exhibit "A" for this development permit on the plans submitted for the Building Permit must be clearly called out and labeled by standard architectural methods to indicate such changes. Any changes that are not properly called out and labeled will not be authorized by any Building Permit that is issued for the proposed development. The final plans shall include the following additional information:
 - 1. Identify finish of exterior materials and color of roof covering for Planning Department approval. Any color boards must be in 8.5" x 11" format.
 - 2. Grading, drainage, and erosion control plans.
 - 3. For any structure proposed to be within 2 feet of the maximum height limit for the zone district, the building plans must include a roof plan and a surveyed contour map of the ground surface, superimposed and extended to allow height measurement of all features. Spot elevations shall be provided at points on the structure that have the greatest difference between ground surface and the highest portion of the structure above. This requirement is in addition to the standard requirement of detailed elevations and cross-sections and the topography of the project site which clearly depict the total height of the proposed structure.

Application#: 06-0530 APN: 032-212-21 Owner: Eric Bodnar

- 4. Details showing compliance with fire department requirements, including all requirements of the Urban Wildland Intermix Code, if applicable.
- C. Submit four copies of the approved Discretionary Permit with the Conditions of Approval attached. The Conditions of Approval shall he recorded prior to submittal, if applicable.
- D. Meet all requirements of and pay Zone 5 drainage fees to the County Department of Public Works, Drainage. Drainage fees will be assessed on the net increase in impervious area.
- E. Meet all requirements of and pay all applicable fees to the Department of Public Works for roadway improvements to 34" Avenue.
- F. Obtain an Environmental Health Clearance for this project from the County Department of Environmental Health Services.
- G. Meet all requirements and pay any applicable plan check fee of Central Fire Protection District.
- H. Submit 3 copies of a soils report prepared and stamped by a licensed Geotechnical Engineer for the subject property.
- 1. Provide required off-street parking for 3 cars. Parking spaces must be 8.5 feet wide by 18 feet long and must be located entirely outside vehicular rights-of way. Parking must be clearly designated on the plot plan.
- J. Provide required on street parking for 2 cars. Parking spaces must be **8.5** feet wide by 18 feet long and must be located entirely within the 34th Avenue right of way off of the traveled roadway. Parking must be clearly designated on the plot plan.
- K. All landscaping located within the right of way shall be low-lying and shall be maintained to under 3-feet in height.
- L. Submit a written statement signed by an authorized representative of the school district in which the project is located confirming payment in full of all applicable developer fees and other requirements lawfully imposed by the school district.
- III. **All** construction shall be performed according to the approved plans **for** the Building Permit. Prior to final building inspection, the applicant/owner must meet the following conditions:
 - A. All site and roadway improvements shown on the final approved Building Permit plans shall be installed.
 - B. All inspections required by the building permit shall be completed to the

satisfaction of the County Building Official

- C. The project must comply with all recommendations of the approved soils reports.
- D. Pursuant to Sections 16.40.040 and 16.42.100 of the County Code, if at any time during site preparation, excavation, or other ground disturbance associated with this development, any artifact or other evidence of an historic archaeological resource or a Native American cultural site is discovered, the responsible persons shall immediately cease and desist from all further site excavation and notify the Sheriff-Coronerif the discovery contains human remains, or the Planning Director if the discovery contains no human remains. The procedures established in Sections 16.40.040 and 16.42.100, shall he observed.

IV. Operational Conditions

- A. On-street parking spaces created within the right of way shall remain clear and accessible for public use.
- B. In the event that future County inspections of the subject property disclose noncompliance with any Conditions of this approval or any violation of the County Code, the owner shall pay to the County the full cost of such County inspections, including any follow-up inspections and/or necessary enforcement actions, up to and including permit revocation.
- V. As a condition of this development approval, the holder of this development approval ("Development Approval Holder"), is required to defend, indemnify, and hold harmless the COUNTY, its officers, employees, and agents, from and against any claim (including attorneys' fees), against the COUNTY, it officers, employees, and agents to attack, set aside, void, or annul this development approval of the COUNTY or any subsequent amendment **of** this development approval which is requested by the Development Approval Holder.
 - A. COUNTY shall promptly notify the Development Approval Holder of any claim, action, or proceeding against which the COUNTY seeks to be defended, indemnified, or held harmless. COUNTY shall cooperate fully in such defense. If COUNTY fails to notify the Development Approval Holder within sixty (60) days of any such claim, action, or proceeding, or fails to cooperate fully in the defense thereof, the Development Approval Holder shall not thereafter be responsible to defend, indemnify, or hold harmless the COUNTY if such failure to notify or cooperate was significantly prejudicial to the Development Approval Holder.
 - B. Nothing contained herein shall prohibit the COUNTY from participating in the defense of any claim, action, or proceeding if both of the following occur:
 - 1. COUNTY bears its own attorney's fees and costs; and
 - 2. COUNTY defends the action in good faith

Application # 06-0530 APN: 032-212-21 Owner: Eric Bodnar

- C. Settlement. The Development Approval Holder shall not be required to pay or perform any settlement unless such Development Approval Holder has approved the settlement. When representing the County, the Development Approval Holder shall not enter into any stipulation or settlement modifying or affecting the interpretation or validity of any of the terms or conditions of the development approval without the prior written consent of the County.
- D. <u>Successors Bound</u>. "Development Approval Holder" shall include the applicant and the successor'(s) in interest, transferee(s), and assign(s) of the applicant.

Minor variations to this permit which do not affect the overall concept or density may be approved by the Planning Director at the request of the applicant or **staff** in accordance with Chapter 18.10 **of** the County Code.

Please note: This permit expires two years from the effective date on the expiration date listed below unless you obtain the required permits and commence construction.

Approval Date:	
Effective Date:	
Expiration Date:	
Don Bussey	Samantha Haschert
Deputy Zoning Administrator	Project Planner

Appeals: Any property owner, or other person aggrieved, or any other person whose interests are adversely affected by any act or determination of the Zoning Administrator, may appeal the act or determination to the Planning Commission in accordance with chapter 18.10 of the **Santa** Cruz County Code.

CALIFORNIA ENVIRONMENTAL QUALITY ACT NOTICE OF EXEMPTION

The Santa Cruz County Planning Department has reviewed the project described below and has determined that it is exempt from the provisions of CEQA as specified in Sections 15061 - 15332 of CEQA for the reason(s) which have been specified in this document.

Application Number: 06-0530

	el Number: 032-212-21 on: 111 34th Avenue
J	iption: Proposal to demolish an existing single family dwelling and accessory structure and construct a new single family dwelling.
Person or Age	ency Proposing Project: Paul Del Monte
Contact Phon	e Number: (831) 252-6145
	The proposed activity is not a project under CEQA Guidelines Section 15378. The proposed activity is not subject to CEQA as specified under CEQA Guidelines Section 15060(c).
	Ministerial Project involving only the use of fixed standards or objective measurements without personal judgment.
	<u>Statutory Exemption</u> other than a Ministenal Project (CEQA Guidelines Section 15260 to 15285).
Specify type:	
E. <u>x</u>	Cateeorical Exemption
Specify type:	Class 3 - New Construction or Conversion of Small Structures (Section 15303)
F. Reason	ns why the project is exempt:
Proposal to con	nstruct a single family dwelling in an area deisgnated for residential uses.
In addition, no	ne of the conditions described in Section 15300.2 apply to this project.

COUNTY OF SANTA CRUZ INTER-OFFICE CORRESPONDENCE

DATE: February 12,2007

TO: Samantha Haschert, Planning Department, Project Planner **FROM:** Melissa Allen, Planning Liaison to the Redevelopment Agency

SUBJECT: Application #06-0530, 2nd Routing, APN 032-212-21,11134" Avenue, Live Oak

The applicant is proposing to demolish an existing single family residence **and** accessory structure on a double frontage lot and construct **a** three bedroom, two and a half bath single family dwelling. The project requires a Coastal Development Permit. The property is located east of East Cliff Drivebetween 33rd and 34th Avenue.

This application was considered at Engineering Review Group (ERG) meetings on October 4,2006 and January 31,2007. The Redevelopment Agency (RDA) previously commented on this application on October 12,2006 (attached for reference). RDA appreciates the applicant addressing many of the previous comments (e.g. #s 1 through 4), but has the following additional comments regarding this **routing** for the proposed project. RDA's primary concerns for this project involve protecting public road rights-of-way from private use and improvements, as on-street public parking is extremely limited in neighborhoods along the coast, design compatibility of the proposed house with those in the surrounding neighborhood, and protection of the significant tree onsite.

- 1. RDA appreciates the applicant modifying the proposal to remove proposed landscaping in the 34" Avenue public right-of-way, eliminate the second driveway cut on 34" Avenue, and provide new paving and realigned striping in the road right-of-way pursuant to previous comments. (Please note, a Public Works encroachment permit is required for any work within a public right-of-way.) These changes may allow for public on-street parking for at least two vehicles. Maximizing opportunities for on-street public parking in the neighborhoods adjacent to the coast is a priority of the California Coastal Commission.
- 2. A strip of landscape area is still proposed in the 34" Avenue public right-of-way, but no specific planting information was provided. No plantings other than low ground cover should be installed/permitted in this area. The plans should specify/demonstrate this or the project conditioned accordingly.
- 3. RDA recommends that existing and new fences be limited to a maximum height of 3 feet in the front and street setback areas to ensure line-of-sight visibility to and from the driveways and to minimize visual impacts (previous comment #5). The plans should demonstrate this or **the** project be conditioned accordingly.
- 4. No information was provided with this routing as to whether previous comment #6 regarding Design Review neighborhood compatibility was addressed.
- 5. RDA did not receive a Landscape Plan L-1 sheet (referenced in the Contents list on the cover sheet) with this routing. There is no information whether previous comment #7 was addressed regarding protection of the significant 24-inch Queen Palm in the front adjacent to 34" Avenue. RDA recommends ensuring that this tree is protected during construction. This should be addressed on the plans or the project conditioned accordingly.

The issues referenced above should be evaluated as part of this application. RDA does not need to see future routings of revised project plans unless there are changes **or** additional information relative to these comments. RDA appreciates this opportunity to comment. *Thank* you.

cc: Greg Martin, DPW Road Engineering; Paul Rodrígues, **RDA** Project Manager; Betsey Lynberg, RDA Administrator; Jan Beautz, 1⁸¹ District Supervisor

Re: Design Reviewfor a new single family dwelling at 111 34th Avenue, Santa Cruz

GENERAL PLAN! ZONING CODE ISSUES

Desian Review Authority

13.20.130 The Coastal Zone Design Criteria are applicable to any development requiring a Coastal Zone Approval.

Design Review Standards

13.20.130 Design criteria for coastal zone developments

Evaluation Criteria	Meets criteria In code (❤)	Does not meet criteria (✓)	Urban Designer's Evaluation
		1	
in diameter except where circumstances require their removal, such as obstruction of the building site, dead or diseased trees, or nuisance species.			
Special landscape features (rock outcroppings. prominent natural landforms, tree groupings) shall be retained.	•		

sited and designed not to project	
above the ridgeline or tree canopy at	
the ridgeline	
Land divisions which would create	N/A
parcels whose only building site would	
be exposed on a ridgetop shall not be	
permitted	
andscaping	
New or replacement vegetation shall	N/A
be compatible with surrounding	IVA
vegetation and shall be suitable to the	
climate, soil, and ecological	
characteristics of the area	
	<u> </u>
Development shall be leasted 16	
Development shall be located, if possible, on Darts of the site not visible	N/A
pussible, on dails of the site flot visible	
Development shall not block views of	N/A
the shoreline from scenic road	19/74
Development shall be sited and	N/A
designed to fit the physical setting	IN/A
carefully so that its presence is	
subordinate to the natural character of	
the site, maintaining the natural	
features (streams, major drainage,	
mature trees, dominant vegetative	
communities)	
Screening and landscaping suitable to	N/A
the site shall be used to soften the	IN/A
visual impact of development in the	
Structures shall be designed to fit the	N/A
topography of the site with minimal	IVA
cutting, grading, or filling for	
construction	
Pitched rather than flat roofs, which	N/A
are surfaced with non-reflective	17/
materials except for solar energy	
Natural materials and colors which	N/A
blend with the vegetative cover of the	}
site shall be used, $oldsymbol{lpha}$ if the structure is	
located in an existing cluster of	
buildings, colors and materials shall	
repeat or harmonize with those in the	
duster	
Large agricultural structures	

The viewel impact of large agricultural	
The visual impact of large agricultural	N/A
structures shall be minimized by	
locating the structure within or near an	
existing group of buildings	
The visual impact of large agricultural	NIA
structures shall be minimized by using	INIA
materials and colors which blend with	
the building cluster or the natural	
vegetative cover of the site (except for	
greenhouses).	
The visual impact of large agricultural	NIA
structures shall be minimized by using	INIA
landscapingto screen or soften the	
appearance of the structure	
Restoration	
Feasible elimination or mitigation of	l NA
unsightly, visually disruptive or	
degrading elements such as junk	
heaps, unnatural obstructions, grading	
scars, or structures incompatible with	
the area shall be included in site	
development	
The requirement for restoration of	N/A
visually blighted areas shall be in	
scale with the size of the proposed	
project	
Signs	
Materials, scale, location and	NII A
orientation of signs shall harmonize	NIA NIA
with surrounding elements	
Directly lighted, brightly colored,	NIA
rotating, reflective, blinking, flashing or	
moving signs are prohibited	
Illumination of signs shall be permitted	N/A
only for state and county directional	l luz
and informational sgns, except in	
designated commercial and visitor	
serving zone districts	İ
In the Highway 1 viewshed, except	N/A
within the Davenport commercial area,	
only CALTRANS standard signs and	
public parks, or parking lot	
identification signs, shall be permitted	
to be visible from the highway. These	
signs shall be of natural unobtrusive	
materials and colors	
materials and colors	
Beach Viewsheds	
Blufftop development and landscaping	N/A
(e.g., decks, patios, structures, trees,	
shrubs, etc.) in rural areas shall be set	
back from the bluff edge a sufficient	
distance to be out of sight from the	

	·	
shoreline, or if infeasible, not visually intrusive		
No new permanent structures on o beaches shall be allowed, except where permitted pursuant to Chapter 16.10 (Geologic Hazards) or Chapter 16.20 (Grading Regulations)		N/A
The design of permitted structures shall minimize visual intrusion, and shall incorporate materials and finishes which harmonize with the character of the area. Natural materials are preferred.		N/A

Design Review Authority

13.11.040 Projects requiring design review.

(a) Single home construction, and associated additions involving 500 square feet or more, within coastal special communities and sensitive sites **as** defined in this Chapter.

13.11.030 Definitions

(u) 'Sensitive Site' shall mean any property located adjacent **to** a **scenic road** or within the viewshed of a scenic road as recognized in the General Plan; or located on a coastal bluff, or on a ridgeline.

Design Review Standards

Application No: 06-0530 (secon Juting) January 23,2007

Solar Design			
Building design provides solar access that is reasonably protected for adjacent properties	>		
Building walls and major window areas are oriented for passive solar and natural lighting		>	

Urban Designer's comments:

The design of this house has many types of roofs This creates a scattered pattern, rather than a visually coherent design I recommend that the Project Planer add a Condition of Approval, which removes the flat roof and continues the pattern of gable roofs

I believe the designer is either specifying slate or copper roof shingles This should be clarified and the color should be shown on the material board using a catalog picture.

SANTA CRUZ COUNTY SANITATION DISTRICT

INTER-OFFICE CORRESPONDENCE

DATE OCTOBER 10, 2006

TO PLANNING DEPARTMENT: SAMANTHA HASCHERT

FROM: SANTA CRUZ COUNTY SANITATION DISTRICT

CONDITIONS OF SERVICE FOR THE FOLLOWING SUBJECT:

PROPOSED DEVELOPMENT

APN. 032 APPLICATION NO: 06-0530 2-21

PARCEL ADDRESS: 111 34TH AVENUE

PROJECT DESCRIPTION: DEMOLISH EXISTING SFD AND ACCESSORY

STRUCTURE AND CONSTRUCT SFD

This notice is effective for one year from the Issuance date to allow the applicant the lime to receive tentative map, development or other discretionary permit approval. If after this time frame this project has not received approval from the Planning Department, a new availability letter must be obtained by the applicant. Once a tentative map is approved this letter shall apply until the tentative map approval expires

Engineer shall maintain minimum 1-foot separation between storm drain and sewer main crossing.

Pi-oposed location of on-site sewer lateral(s), clean-out(s), and connections(s) to existing public sewer must be shown on the building plot plan.

The existing sewer lateral must be properly abandoned (including inspection by District) prior to issuance of demolition permit or relocation or disconnection of structure. An abandonment permit (no charge) for disconnection must be obtained from the District.

A backflow pi-evention device may be required on the sewer lateral

We have reviewed plans for the above subject project.

The following NOTES must be added to notes on velums by the designer/architect in order to satisfy District requirements when submitting for **Application for Building** Permit:

NOTE on the plans that these plans are in compliance with California Building and Fire Codes (2001) and District Amendment.

NOTE on the plans the OCCUPANCY CLASSIFICATION, BUILDING CONSTRUCTION TYPE-FIRE RATING and SPRINKLERED as determined by the building official and outlined in Chapters 3 through 6 of the 2001 California Building Code (e.g., R-3, Type V-N, Sprinklered).

The FIRE FLOW requirement for the subject property is 1000 gallons per minute for 120 minutes. NOTE on the plans the REQUIRED and AVAILABLE FIRE FLOW. The AVAILABLE FIRE FLOW information can be obtained from the water company.

SHOW on the plans a public fire hydrant, meeting the minimum required fire flow for the building, within 250 feet of any portion of the building.

NOTE ON PLANS: New/upgraded hydrants, water storage tanks, and/or upgraded roadways shall be installed PRIOR to and during time of construction (CFC 901.3).

NOTE on the plans that the building shall be protected by an approved automatic sprinkler system complying with the edition of NFPA 13D currently adopted in Chapter 35 of the California Building Code.

NOTE that the designer/installer shall submit two (2) sets of plans, calculations, and cut sheets for the underground and overhead Residential Automatic Sprinkler System to this agency for approval. Installation shall follow our guide sheet.

Show on the plans where smoke detectors are to be installed according to the following locations and approved by this agency as a minimum requirement:

- One detector adjacent to each sleeping area (hall, foyer, balcony, or etc).
- One detector in each sleeping room.

EXHIBIT G

- There must be at least one smoke detector on each floor level regardless of area usage.
- There must be a minimum of one smoke detector in every basement area.

NOTE on the plans where address numbers will be posted and maintained. Note on plans that address numbers shall be a minimum of FOUR (4) inches in height and of a color contrasting to their background.

NOTE on the plans the installation of an approved spark arrestor on the top of the chimney. Wire mesh not to exceed ½ inch.

NOTE on the plans that the roof coverings to be no less than Class " B rated roof

Submit a check in the amount of \$100.00 for this particular plan check, made payable to Central Fire Protection District. A \$35.00 Late Fee may be added to your plan check fees if payment is not received within 30 days of the date of this Discretionary Letter. INVOICE MAILED TO APPLICANT. Please contact the Fire Prevention Secretary at (831) 479-6843 for total fees due for your project.

If you should have any questions regarding the plan check comments, please call me at (831) 479-6843 and leave a message, or email me at tomw@CentralfDd.COm. All other questions may be directed to Fire Prevention at (831)479-6843.

CC: File & County

As a condition of submittal of these plans, the submitter, designer and installer certify that these plans and details comply with applicable Specifications, Standards, Codes and Ordinances, agree that they are solely responsible for compliance with applicable Specifications, Standards, Codes and Ordinances, and further agree to correct any deficiencies noted by this review, subsequent review, inspection or other source. Further, the submitter, designer, and installer agrees to hold harmless from any and all alleged claims to have arisen from any compliance deficiencies, without prejudice, the reviewer and the Central FPD of Santa Cruz County. 3221221-092606

Application# 06-0530 APN: 032-212-21 Owner: Eric Bodnar

residential uses are allowed **uses** in the R-1-4 (Single Family Residential – 4,000 square foot minimum) zone district of the area, as well as the General Plan and Local Coastal Program land use designation. Developed parcels in the area contain single family dwellings. Size and architectural styles vary widely in the area, and the design submitted is not inconsistent with the existing range.
